RULES FOR THE GRANT OF LEASES OF MICA MINES IN HAZARIBAGH AND GYA.

REVENUE DEPARTMENT—LAND REVENUE.

Calcutta, the 5th December 1888.

RESOLUTION.

READ—

Resolution of the Government of Bengal, dated the 26th April, 1888.

Letter from this Government to the Government of India, Revenue and Agricultural Department, No. 21T.—R., dated the 6th June, 1888, with enclosure.

Letter from the Government of India, No. 177M.—25-4, dated the 31st July, 1888, with enclosure.

Letter from this Government to the Government of India, No. 2981—1252L.R., dated the 3rd September, 1888, with enclosure.

Letter from the Government of India, No. 231M.—25-7, dated the 15th October, 1888.

By the Resolution, dated the 26th April, 1888, cited in the preamble, the Lieutenant-Governor laid down general rules for the grant of licenses to prospect for minerals on land at the disposal of Government. The object of this measure was to encourage mining enterprise by substituting, for the dilatory and uncertain procedure previously in force, a system under which local officers can dispose of applications promptly and on a uniform principle. The considerations, which induced the Lieutenant-Governor to make regulations as to the preliminary operations of inspecting, apply with equal force to concessions for the actual exercise of mining rights, and the Lieutenant-Governor is accordingly pleased to issue the orders embodied in the rules printed below for the grant of leases to mine for mica in the districts of Gya and Hazaribagh. These are the only mines at present known to exist in these Provinces on estates the property of Government. Should applications be received for leases in respect of other metals, or in other districts, the orders of the Government of India will still be required in each case; but the recommendations of this Government will be framed with regard to the rules now published.

2. It may be noticed, for the information of those concerned, that the mica found in Hazaribagh and Gya on Government estates occurs irregularly and precariously in a coarse variety of granite. Its presence in plates of the size and colour required can be ascertained only after careful examination and experiment by way of prospecting. In Hazaribagh the mineral is known to exist in the Koderma reserved forest, which is 33 square miles in area, and also in tracts adjoining that reserve. Seventy mines or plots, aggregating 15 acres 2 roods and 34 poles in area, are now worked by a private company, and a lease has also been granted for all mines within the limits of 10 villages in the neighbourhood. In the district of Gya, mica mines are reported to exist in the Government estates of Dabour and Chatkari, and certain other adjoining localities, in the Nawada sub-division, lying in the extreme south of the district adjoining Hazaribagh. Dabour consists of several mouzahs commencing with Bouri, about one mile south of Rajauli, and ending with Rattanpore on the Hazaribagh border. The greater part of the estate lies between two ranges of hills, and is intersected by the river Dhanarjih, in the bed of which traces of mica are abundant. Chatkari, which is on the border of the district due east from Bouri, consists of a single mouzah, but extends over a considerable area of high land, and has within its limits two or three prominent hills.

RULES.

PERSONS desirous of obtaining permission to mine for mica on Government waste lands in the districts of Hazaribagh and Gya should apply for a mining lease to the Collector or Deputy Commissioner of the district, specifying distinctly the situation of the land within which it is proposed to mine and its boundaries, as accurately as can be stated, together with its estimated area. Every application should be accompanied by a rough sketch of the tract applied for, or the approximate position of the lot required be marked on the survey plan. The extent of such lot shall not exceed half a square mile, and, where the application is for a strip of land following the direction of a band or belt of mica, the length of the lot shall not exceed four miles. Applications will be dealt with in order of receipt by the Collector or Deputy Commissioner. On an application being accepted by the Collector or Deputy Commissioner, the lot or lots will be durably demarcated and surveyed at the cost of the applicant, to whom a lease in the prescribed form will be granted on the following conditions:—

(1) That the lease shall be for a term not exceeding 20 years;

(2) That an annual rent, at such rates as may be approved by the Commissioner of

the Division, shall be payable in arrears by equal half-yearly instalments, the first payment to be made at the expiration of six months from the date of the execution of the lease;

(3) That if, in the course of mining operations, the lessee find any gold exceeding the proportion of 2 dwts. per ton of quartz crushed, or any other metals, excepting mica, in considerable quantities, he shall report the same to the Collector or Deputy Commissioner, and accept a lease to mine for the metal or metals found for the residue of the term in lieu of the original lease; provided that if gold be found, and the lessee desire to work the gold, a separate lease shall be taken out;

(4) That the lessee will, within nine months from the execution of the lease, commence operations, and thereafter, during its currency, in the best and most effectual manner and without intermission, except when prevented by inevitable accident, carry on mining operations, and will, whenever called upon, furnish proof of his having done so;

(5) That the lessee shall pay the value, as fixed by the Collector or Deputy Commissioner, or other officer authorized by him in that behalf, of all timber and other trees standing on the land leased which the said lessee may destroy or injure;

(6) That the lessee shall be liable to forfeiture on failure to observe any of the conditions specified in the lease, the Lieutenant-Governor of Bengal being the final arbiter as to whether the conditions of the lease have been duly observed or not;

(7) That the lease shall be renewable, at the lessee's option, on such terms as the Lieutenant-Governor of Bengal for the time being may settle, at the expiration of the original lease;

(8) That the lessee shall not, nor will, transfer, underlet, or part with the possession of the said land, mine and premises, or any part thereof, or mortgage, charge or encumber the same, without the permission of the Collector or Deputy Commissioner.

2. Without the written permission of the Collector or Deputy Commissioner, previously obtained, the land applied for must not be entered upon, nor operations commenced.

3. No lessee of any block leased under these rules for mining purposes shall divert any road, path or byeway on the block leased, or any watercourse beyond the limits of the block leased to him, and all water running waste on such block shall be returned to its natural channel within the limits of the same block.

Failure to observe this condition will render the lease liable to forfeiture.

4 The foregoing conditions will be equally binding on the transferree in case the lease is transferred.

Form of Leases.

THIS Indenture made the day of one thousand eight hundred and between the RIGHT HON'BLE THE SECRETARY OF STATE FOR INDIA IN COUNCIL (hereinafter called the lessor) of the one part and of (hereinafter called the lessee) of the other part.

WITNESSETH that in consideration of the rent hereinafter reserved and of the covenants and agreements by the lessee hereinafter contained he the lessor doth hereby demise and grant unto the lessee his executors administrators and assigns.

And the lessee doth hereby for himself his heirs executors administrators and assigns covenant with the lessor his successors and assigns that he the lessee his executors administrators or assigns will during the said term duly and punctually pay unto the lessor his successors or assigns the said rent hereinbefore reserved on the days and in manner hereinbefore appointed for the payment thereof.

Provided also that if at any time during the said term the lessee his executors administrators or assigns shall in the course of carrying on the mining operations to be carried on under these presents or otherwise find any gold in upon or under the said piece of land and amounting in quantity to two pennyweights for each ton of quartz rock or stone that may be crushed or any other metals excepting mica in considerable quantities the lessee his executors administrators or assigns shall forthwith report the same to the lessor his successors or assigns or his or their agent or agents duly authorized in this behalf and shall and will thereupon accept from the lessor his successors or assigns a lease of the said piece of land for the purpose of mining for the metal or metals found therein and thereon for the residue of the said term hereby granted and upon the terms and conditions which the lessor his successors or assigns for the time being may determine. Provided also that if gold be found and the lessee desire to work the gold a separate lease shall be taken out.

Provided also that the lessee his executors administrators or assigns shall and will pay to the lessor his successors or assigns or his or their agent or agents in this behalf the value of all timber and other trees standing on the said piece of land which the said lessee his executors administrators or assigns may destroy or injure such value to be fixed by the Collector / Deputy Commissioner for the time being of or other officer authorized by him in that behalf whose decision thereon shall be final and conclusive and altogether operative and binding upon the lessee his executors administrators and assigns.

And the lessee doth hereby for himself his executors administrators and assigns further covenant with the lessor his successors and assigns that he the lessee his executors administrators and assigns will at all times during the said term hereby granted in the best and most effectual manner and without intermission except when prevented by inevitable accident work for all mica in under or upon the said piece of land.

And also will throughout the said term make and keep in some convenient place on the said piece of land and so that the lessor his successors or assigns or his or their agent or agents can have at all times free access thereto proper books of account of the operations carried on under these presents and showing the number of labourers from time to time employed in or about the same and the nature of their work and the costs and expenses of such operations and of the disposal of the mica and other substances of a saleable and merchantable nature and containing all particulars of quantities dates and other facts and circumstances necessary or proper for ascertaining the exact value of such mica and other substances and also correct maps plans and sections of the mines and workings in the said piece of land.

And also will when required by the lessor his successors or assigns or his or their agent or agents give to him or them copies of all entries in the said books and of every such map plan and section as aforesaid without making any charge for the same

And also will furnish to the lessor his successors or assigns or his or their agent or agents at such times as may from time to time be appointed in that behalf by the lessor his successors or assigns or his or their agents full and true returns of the number of labourers employed from day to day and each and every day on or about the said piece of land.

And also will from the day of 18 and at all times thereafter during the said term when so required by the lessor his successors or assigns furnish to the lessor his successors or assigns such further and other proof as the lessor his successors or assigns may consider satisfactory of *bonâ fide* mining operations having been and being properly and effectually carried on in under and upon the said piece of land.

And also will throughout the said term keep all boundary posts in good repair and condition and every shaft pit and open working within the said piece of land sufficiently fenced for the protection of man and beast.

And also will keep open and not obstruct all or any existing roads paths or byeways of any kind whatsoever upon the said pieces of land or any watercourses near thereto and will from time to time and at all times during the said term provide and construct on the said piece of land such watercourses and channels as shall be necessary for conveying and conducting all water which shall run waste upon the said piece of land to its natural channel thereon.

And also will permit the lessor his successors and assigns and his or their agent or agents servants and workmen throughout the said term to enter upon the said piece of land and any of the works carried on under or by virtue of these presents and to examine the

state and condition thereof and to see whether the same are carried on in a proper and workmanlike manner and to use the engines machinery and apparatus upon or within the said piece of land for that or for any other lawful and reasonable purpose.

And also will from time to time and at all times hereafter effectually keep indemnified the lessor his successors and assigns from and against all claims demands and expenses whatsoever by reason or in consequence of any injury to or interference with any lands or property whatsoever occasioned by or arising from the working under these presents or the exercise of the rights and liberties hereby granted.

And also shall not nor will transfer underlet or part with the possession of the said land mine and premises or any part thereof or mortgage charge or encumber the same without the permission of the Collector or Deputy Commissioner.

And also will at the expiration or sooner determination of the said term deliver to the lessor his successors or assigns the mines worked under these presents and all workings buildings boundary posts and fences connected therewith and other the premises in good repair and working order and in all respects in such state and condition as shall be consistent with the due performance of the covenants hereinbefore contained.

And in the event of the lessor his successors or assigns desiring to purchase any of the plant machinery or fittings belonging to the lessee his executors administrators or assigns (provided he or they shall be willing to part with the same) then and in that case the amount of purchase-money to be paid for the same shall in the case of difference be settled by two arbitrators one to be named by the lessor his successors or assigns and the other by the lessee his executors administrators or assigns or if the arbitrators differ by an umpire to be chosen by them before entering upon the arbitration and if either party shall fail to name an arbitrator after notice in writing by the other or his or their agent or agents requiring him or them so to do or shall name an arbitrator who neglects to act or to proceed with due diligence in the business of the arbitration or who will not join in naming an umpire then by the valuation of the arbitrator named by the other party and the award made by such arbitrators or arbitrator or umpire may be made a rule of Court subject to the provisions of the Code of Civil Procedure or any then subsisting statutory modification thereof.

Provided always and these presents are upon this express condition that if and whenever any part of the said rent reserved or made payable hereby shall be in arrears for 21 days after due notice has been served on the lessee his executors administrators or assigns or any one or more of them or on his or their agent or fixed on any part of the said piece of land demanding payment of the same or if the lessee his executors administrators or assigns shall fail or neglect to report as hereinbefore provided the finding of any gold or other metals excepting mica in upon or under the said piece of land and amounting to the quantities hereinbefore mentioned or shall refuse to accept from the lessor his successors or assigns such a lease for the purpose of mining for the metal or metals found therein and thereon as is hereinbefore provided or if the lessee his executors administrators or assigns or his or their workmen shall cease to carry on the regular mining operations as hereinbefore provided or shall fail to furnish when required as aforesaid such proof as hereinbefore provided of *bonâ fide* mining operations having been and being carried on in under and upon the said piece of land or shall cause any obstruction or annoyance to the officers of the lessor or of his successors or assigns or if and whenever there shall be a breach of any of the covenants herein contained on the part of the lessee his executors administrators or assigns then and in such case the lessor his successors or assigns or his or their agents or agent duly empowered in that behalf may re-enter upon any part of the said piece of land or of the mines or workings carried on under this lease in the name of the whole and thereupon the said term of years shall absolutely determine provided always and it is hereby agreed and declared that no such re-entry or forfeiture of the said term under the proviso for re-entry hereinbefore contained shall take place (except in case of neglect or refusal on the part of the lessee his executors administrators or assigns to furnish such proof as aforesaid of *bonâ fide* mining operations) unless and until the lessor his successors or assigns shall have given to the lessee his executors administrators or assigns a notice calling upon him or them to give a reasonable explanation of the matter or matters complained of and to rectify the same which notice shall be in writing signed on behalf of the lessor his successors or assigns by his or their duly authorized agent or by any other person specially empowered in that behalf and shall be served on the lessee his executors administrators or assigns or any one or more of them or on his or their agent or fixed on any part of the said piece of land and default shall have been made in giving such reasonable explanation and in rectifying the matter complained of for the space of three calendar months from the time of such notice being so served or affixed.

And the lessor doth hereby for himself his successors and assigns covenant with the lessee his executors administrators and assigns that he and they paying the said rent and performing and observing the several covenants and agreements by the lessee herein contained may peaceably hold and enjoy the said premises during the said term without any interruption or disturbance by the lessor his successors or assigns or any person lawfully claiming under or in trust for him or them.

Provided always and it is hereby agreed and declared that if the lessee his executors ad[illegible]rs or assigns shall at the expiration of the said term hereby granted be desirous of [illegible]ther lease of the premises hereby demised then the lessor his successors or assigns a[illegible]nt to him or them a further lease of the said premises upon such terms in every re[illegible]s the lessor his successors or assigns may determine. If any dispute or difference sh[illegible]arise between the lessor and the lessee touching or concerning any clause

matter or thing whatsoever herein contained or the operation or construction thereof or any matter or thing in any way connected with these presents or the rights duties or liabilities of either party under or in connection with these presents save under the arbitration clause hereinbefore contained then and in every such case the dispute or difference shall be referred to the arbitrament and decision of the Lieutenant-Governor of Bengal for the time being whose decision shall be final and binding on both parties.

Rules for the disposal of applications.

Immediately on receipt of an application for land for mica-mining purposes it shall be registered, and the Collector or Deputy Commissioner shall ascertain whether the land is at the disposal of Government, and whether there is any objection to the grant by reason of its being required for public purposes or on any other ground.

2. If no such objection is known to exist, the Collector or Deputy Commissioner will accept the application and cause the land to be demarcated and surveyed without delay at the cost of the applicant, unless this has already been done. On receipt of the survey plan, the Collector or Deputy Commissioner will, without loss of time, place the land in the possession of the applicant.

3. A lease will then be drawn up in the prescribed form in duplicate, and after being duly stamped under Article 39(*a*), Schedule I of the Stamp Act, and executed by the parties, will be submitted for the signature and seal of Government. When returned, one copy will be delivered to the lessee and the other copy kept in the Collector's or Deputy Commissioner's records. The deeds and plans to accompany them should bear a number, corresponding to the number of the grant in the register: the latter should be signed by the Collector or Deputy Commissioner and securely attached to the deeds

4. A register of applications for land for mica-mining purposes will be maintained in the Collector's or Deputy Commissioner's office in English in the accompanying form:—

Register of Applications for Land for Mica-mining in the district of

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*, and that copies of it be forwarded to the Government of India, the Board of Revenue, the Conservator of Forests, and the Commissioners of the Patna and Chota Nagpore Divisions.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Govt. of Bengal.

REVISED RULES UNDER THE INDIAN CHRISTIAN MARRIAGE ACT XV OF 1872.

(*RESOLUTION.*)

GENERAL DEPARTMENT.

ECCLESIASTICAL.

Calcutta, the 11th December 1888.

READ—

The Indian Christian Marriage Act, 1872 (No. XV of 1872).

Also the Births, Deaths, and Marriages Registration Act No VI of 1886.

Rules for the submission of ecclesiastical returns to Government and for the disposal of marriage fees.

1. In accordance with the provisions of Section 85 of the Act, the Lieutenant-Governor is pleased to determine that the District Judge for the purposes of this Act shall be the District Judge appointed under the provisions of Act VI of 1871 (the Bengal Civil Courts Act, 1871), and his jurisdiction shall extend to the local limits fixed by the local Government under Section 18 of Act VI of 1871.

2. Under the provisions of Section 83 the Lieutenant-Governor is pleased to direct the observance of the following rules for the disposal of the fees prescribed by Section 83, the supply of register books, and the preparation and submission of returns of marriages solemnized under the Act.

Head I.—*Rules relating to persons who have received episcopal* ordination (but who are not Clergymen of the Church of England nor of the Church of Rome), and to Ministers of Religion who, under Section 6 of the Act, have obtained licenses to solemnize marriages.*

Definition of "minister."

1. For the sake of brevity, the term "minister" will be used for both of these classes of returning officers under this division.

Minister to send certificate monthly.

2. A minister is required, by Section 34 of the Act, to detach from his marriage register book every certificate of marriage solemnized by him during any month, and transmit it, *within one month from the time of solemnization* of such marriage, to the Magistrate in a regulation district, to the Deputy Commissioner in a non-regulation district or to the Assistant Commissioner in any sub-division of the Sonthal Pergunnahs, that is to say, to the *ex-officio* Marriage Registrar or Senior Marriage Registrar of the district. Ministers in Calcutta should forward their certificates to the Senior Marriage Registrar of Calcutta.

3. The form to be used by ministers for this purpose is given in the fourth schedule of the Act.

Duties of Magistrates, &c.

4. The Magistrate, Deputy Commissioner, or Assistant Commissioner as the case may be, is required by the same and the two following Sections of the Act—

(*a*) to add to each certificate the number of the entry of the copy in the Book to be kept by him under Section 34;

(*b*) to affix to it his signature or initials; and

(*c*) to transmit all the certificates received during the month to the Registrar General of Births, Deaths and Marriages, together with the certificates from his own marriage register book, if he should have solemnized any marriages during the month.

Information to be recorded on face of certificate.

5. On the face of every certificate of marriage thus forwarded, the minister *must* distinctly state if either party to the marriage is a *British subject*, or the legitimate offspring of a British subject, or of a person or persons; as in this case it is imperative that the certificate should be forwarded to England. If neither party to the marriage be such, that fact also must be stated; and it must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar General of Births, Deaths and Marriages.

* Such as clergymen of the Armenian and Greek Churches.

6. The following is the definition of the term "British subject," which should be adopted in carrying out the above distinction:—"The term *British subject* means a person who was born in the United Kingdom, or whose father or paternal grandfather was so born."

Native Christians.

7. The certificates furnished by ministers are not to include entries of marriages between Native Christians.

These marriages, under Section 37 of the Act, must be registered in a separate register book in the form given in schedule 4 of the Act. When certificates of such marriages are given, they shall also be in the form given in schedule 4. The headings of this register book should be in the language of the district in which the register is kept, with an English translation; but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. This book, when filled, must be dealt with as directed by this Section. Under Section 62, true extracts from this register book shall be deposited in the office of the Registrar General of Births, Deaths and Marriages, Calcutta, on the 31st December of each year. For the form of extract see Appendix 1.

Applications for licenses.

8. Applications for licenses should be submitted to Government through the Commissioner within whose jurisdiction the applicant may be residing, or in the case of residence in Calcutta, through the Senior Marriage Registrar of Calcutta. Those officers should also forward an expression of their opinion. In every case the name of the applicant should be given in full.

Procedure on resignation.

9. When any person desires to resign the office of a minister licensed to solemnize marriages under the Act, or is about to leave the station or district in which he has exercised such functions, it is particularly requested that he will report the circumstance to the Magistrate of the district, Deputy Commissioner, or Assistant Commissioner, as the case may be, and make over to him for safe custody the marriage register books and all forms and other documents appertaining thereto, unless his (the minister's) successor be duly licensed to solemnize marriages under the Act, in which case the books, forms, and documents referred to should be made over to such successor, and the fact should be reported to the Magistrate, Deputy Commissioner, or Assistant Commissioner for information. In Calcutta the Senior Marriage Registrar occupies the place of the Magistrate, and the report should be made to him.

10. A form of report is given in Appendix 2.

Persons who send certificates to Government.

11. The persons who are required to furnish the certificates to Government under this head are—

(*a*) all Magistrates in the regulation districts, Deputy Commissioners in the non-regulation districts, and Assistant Commissioners in the Sonthal Pergunnahs;

(*b*) the Senior Marriage Registrar of Calcutta.

Head II.—Rules relating to Marriage Registrars appointed under the provisions of Act No. X of 1872 (the Indian Christian Marriage Act), Section 7.

Marriage Registrar to send certificates monthly.

1. A Marriage Registrar is required, by Section 55 of the Act, to submit the certificates of marriage which he has detached from his marriage register book during the month to the Registrar General of Births, Deaths, and Marriages, "at the end of every month." *Copies of the certificate should never be sent. The original is required in every case.*

Form of certificate.

2. A form of the certificate is given in the fourth schedule of the Act.

Information to be recorded on face of certificate.

3. On the face of every certificate of marriage thus forwarded the Marriage Registrar *must* distinctly state if either party to the marriage is a *British subject*, or the legitimate offspring of such a person or persons, as in this case it is imperative that the certificate should be forwarded to England. If neither party to the marriage be such, that *fact* also must be stated; and it must be noted in the latter case if either of them desires the certificate to be transmitted to England for delivery to the Registrar General of Births, Deaths, and Marriages.

4. The following is the definition of the term "British subject," which should be adopted in carrying out the above distinction :—"The term *British subject* means a person who was born in the United Kingdom, or whose father or paternal grandfather was so born."

Definition of "British subject."

5. Applications for appointment to the office of Marriage Registrar in any district beyond Calcutta should be sent to the Commissioner of the division in which the applicant resides; applications for appointment in Calcutta should be sent through the Senior Marriage Registrar of Calcutta. The Commissioner, or the Senior Marriage Registrar, as the case may be, should forward the applications to Government with an expression of his opinion.

Application for appointments.

6. When any person, not being an *ex-officio* Marriage Registrar of the district, desires to resign the office of Marriage Registrar under the Act, or is about to leave the district in which he has been authorized to exercise the functions of a Marriage Registrar, it is particularly requested that he will report the circumstance to the Magistrate of the district, Deputy Commissioner, or Assistant Commissioner, as the case may be, and make over to him for safe custody the marriage register books, and all forms and other documents appertaining thereunto, unless his (the Marriage Registrar's) successor be duly authorized to register marriages in the same district under the Act, in which case the marriage register books, forms, and documents referred to, should be made over to such successor, and the fact be reported to the Magistrate, Deputy Commissioner, or Assistant Commissioner, for information. In Calcutta the Senior Marriage Registrar occupies the place of the Magistrate, and the report should be made to him.

Procedure on resignation.

7. A form of report is given in Appendix No. 2.

Persons who send certificates to the Registrar General of Births, Deaths and Marriages.

8. The persons who are required to furnish marriage certificates under this head to the Registrar General of Births, Deaths and Marriages are—

(*a*) all persons specially appointed by Government to be Marriage Registrars under Section 7 of the Act;

(*b*) all Magistrates in the regulation districts, Deputy Commissioners in the non-regulation districts, and Assistant Commissioners in the Sonthal Pergunnahs who have been appointed *ex-officio* Marriage Registrars under the Act;

(*c*) the Senior Marriage Registrar of Calcutta, who has also been appointed a Marriage Registrar under the Act.

9. The attention of *ex-officio* Marriage Registrars and Senior Marriage Registrars should also be directed to Rule 4, Head I. The form of register to be kept by them is given in Appendix 3.

10. The Registrar General of Births, Deaths and Marriages should see that the true extracts from the register book, referred to in Sections 37, 62, and 64, are duly forwarded to him on the 31st December of each year for deposit in his office.

Extracts from native register.

11. At the close of each year the *ex-officio* Marriage Registrar of each district will be furnished with two copies of the lists of the various persons authorized to solemnize marriages under the Act and residing in his district. One copy of each list it will be his duty, after enquiry, to return to the Registrar General of Births, Deaths and Marriages, with the necessary information filled in, and the other should be retained in the *ex-officio* Marriage Registrar's office. These lists will be in the form shown in Appendix No. 4.

12. The form of the register to be kept by Marriage Registrars under Section 59 of the Act, for the registration of marriages between Native Christians, should be the same as in the fourth schedule of the Act. When certificates of such marriages are given, they shall also be in the form given in schedule 4. The headings of the register book should be in the language of the district in which the register is kept, with an English translation; but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. This book, when filled, is to be dealt with as prescribed in Section 37.

Registration of marriages of Native Christians.

Head III.—The following rule is applicable to persons who hold at the same time the offices of both Marriage Registrars and Ministers under the Heads I and II.

Procedure in submitting certificates.

1. Only certificates of marriages solemnized by ministers of religion under Part III of the Act are required to be submitted through an *ex-officio* Marriage Registrar or Senior Marriage Registrar (*i.e.*, through a Magistrate, Deputy Commissioner, Assistant Commissioner, or the Senior Marriage Registrar, Calcutta). The certificates under Part V of the Act should be forwarded direct to the Registrar General of Births, Deaths and Marriages by the Marriage Registrars, whether they are Magistrates or not.

Head IV.—Rules for the submission of Quarterly Returns of Marriages under Part IV of the Act.

Church of England.

1. By section 28 of the Act, clergymen of the Church of England should send to the Registrar of the Archdeaconry, at the end of every quarter, the returns, in duplicate, of the entries in the register of marriages solemnized at or in any station or district at which such clergymen shall have any spiritual charge. The said Registrar, upon receiving the same, shall transmit one duplicate of the returns relating to marriages performed in the Lower Provinces of Bengal, to the Registrar General of Births, Deaths and Marriages, in the form prescribed in the third schedule of the Act.

Church of Rome.

2. By section 30, returns of the entries of marriages solemnized by clergymen of the Church of Rome, and registered during any quarter, are required to be forwarded quarterly by the person who registers the same (through the Roman Catholic Bishop of the Diocese or vicariate in which such marriages shall be solemnized), to the Vicar-Apostolic of Western Bengal, or the Vicar-General of the Portuguese Missions in Bengal, for transmission to the the Registrar General of Births, Deaths and Marriages.

Church of Scotland.

3. By Section 31, clergymen of the Church of Scotland are required to forward, in the form prescribed in the third schedule of the Act, the returns of marriages solemnized by them during any quarter to the Senior Chaplain of the Church of Scotland, who will forward those relating to the Lower Provinces of Bengal to the Registrar General of Births, Deaths and Marriages in the same manner as the Registrar of the Archdeaconry.

Form of return.

4. A form of marriage return is given in the third schedule. It is optional with the Roman Catholic Bishops to adopt this form or any other; but they should invariably state the name of the church in which each marriage was respectively celebrated.

Persons who should forward these returns.

5. The persons who are required to forward the returns* of marriages specified in the four preceding rules to the Registrar General of Births, Deaths and Marriages are—

(*a*) the Registrar of the Archdeaconry;

(*b*) the Most Reverend the Archbishop of Calcutta, who has consented to collect and forward them;

(*c*) the Very Reverend the Vicar-General of the Portuguese Missions in Bengal, who has also consented to collect and forward them;

(*d*) the Senior Chaplain of the Church of Scotland.

Registration of Native Christian marriages.

6. Marriages between Native Christians under Section 37 of the Act must be registered in a separate register book in the form given in the fourth schedule of the Act. When certificates of such marriages are given, they should also be in the form given in schedule 4 The headings of the register book should be in the language of the district in which the register is kept, with an English translation; but so much of it as has to be filled in by the hand of the person performing the ceremony must be in his own vernacular language. This book, when filled, must be dealt with as directed by this Section. Under Section 62 true extracts from this register book shall be deposited on the 31st December of each year in the office of the Registrar General of Births, Deaths, and Marriages. For the form of extract see Appendix I.

Head V.—Rules for submission of Quarterly Returns of baptisms, Marriages, and Burials of European Christians.

Quarterly returns of baptisms, marriages, and burials.

7. *In addition* to the quarterly marriage returns required under the Act, the Government require the submission, for statistical and other purposes, of quarterly returns of baptisms, marriages, and burials of European Christians, *i. e.*, of "all Christians of European birth or descent, or of mixed European and native descent," in the forms specified in Appendices *5a.* to *5f.* These should be forwarded to the Registrar General of Births, Deaths and Marriages.

Certificate of correctness.

8. The Registrar of the Archdeaconry is not called upon to use the certificate of correctness of the returns, as each Clergyman certifies to its correctness at the foot of each return. The Senior Chaplain of the Church of Scotland is also permitted to write the certificate of correctness on the returns.

Returns to be kept distinct.

9. The return relating to marriages only, as well as that of baptisms, marriages, and burials, for each quarter, should be kept distinct, and not contain entries which belong to other quarters.

Native Christians.

10. These returns are to include no entries in respect of Native Christians.

"No occurrence" certificate.

11. Whenever there may have been no baptisms, marriages, or burials recorded during any quarter, a "certificate of no occurrence" (see Appendix 5*f*) should be forwarded.

Burials by laymen.

12. As the Government desire to possess a record of all deaths of European and Eurasian Christians buried by the laity, and not only of those buried by the clergy, all magisterial officers are required to report every burial by laymen within their several jurisdictions to the resident chaplain, or to the chaplain or minister who visits the station at which the burial has taken place, in order that it may be included in the returns furnished by him to the Registrar of the Archdeaconry.

13. In cases of burials performed in places not visited by any chaplain, the report should be made to the nearest clergyman.

14. A list of all the stations and out-stations in Bengal, showing by what clergyman the out-stations are visited under the orders of the Lord Bishop of Calcutta, will be found in Appendix 6.

15. For the purpose of registering burials not performed by clergymen of the Church of England, or by laymen according to the forms of the Church of England, the following rule has been adopted:—"In every register book there should be a separate page or pages, with heading and form distinct from those entries of burials in which, at present, the clergyman or layman officiating himself enters and certifies the record of the service which he has performed. In this part of the book the chaplain shall enter (as a copy) the copy of the certificate transmitted to him by the magisterial officer of the district. In this form there should be added a statement of the *place* of interment. The chaplain shall copy these entries and return them with the others in his quarterly return, certifying the correctness of the copies which he makes.

16. The reports made by magisterial officers to chaplains should include the names of all European and Eurasian Christians buried by laymen, whether the funeral service be conducted according to the form of the Church of England or not.

Baptisms by laymen.

17. The same rules are applicable to baptisms when performed by laymen

Returns to be forwarded within one month.

18. All officers who forward the quarterly returns to the Registrar General of Births, Deaths and Marriages forward them, if possible, within one month after the close of each quarter.

Officers who are required to submit returns.

19. The officers who are required to submit these quarterly returns of baptisms, marriages, and burials to the Registrar General of Births, Deaths and Marriages are—

(1) the Registrar of the Archdeaconry, who collects them from (*a*) chaplains in the service of Government, (*b*) clergymen (not being covenanted chaplains) ministering under the Bishop's license;

(2) the Most Reverend the Archbishop of Calcutta, who collects them from the various Roman Cath[illegible] registering officers within his jurisdiction;

* They have to be indexed by the Registrar General.

(3) the Very Reverend the Vicar-General of the Portuguese Missions in Bengal, who collects them in a similar manner;
(4) the Senior Chaplain of the Church of Scotland;
(5) the Divisional Commissioners and the Senior Marriage Registrar, Calcutta.

They collect them from (*a*) Marriage Registrars; (*b*) any person who has received episcopal ordination, but who is not a clergyman of the Church of England, nor of the Church of Rome, if there be any such; (*c*) ministers of religion licensed to solemnize marriages under Section 6; (*d*) any other ministers not included in any of the before-mentioned classes who perform such offices. But it is to be distinctly understood that *returns of marriages* are not to be called for from any dissenting minister who is not legally authorized to solemnize marriages.

Head VI.—Rules for levying and disposing of fees received under the Act.

Under the provisions of Sections 82 and 83, fees shall be levied and disposed of in the manner prescribed in the following table:—

FOR WHAT PURPOSE LEVIED.	TO BE LEVIED— By Marriage Registrars.	By Licensed Ministers.	Under sections 57, 61, 63, and 64.	HOW FEES TO BE DISPOSED OF.

7. For every additional year	0 4 0	0 4 0	0 2 0	
8. For granting copies or duplicates of certificates.	1 0	1 0 0	0 4 0	

Head VII.—Rules regarding Books and Forms used by persons authorized to grant Certificates of Marriage between Native Christians.

1. The form of certificate of marriage to be granted under Section 61 is given in the fourth schedule of the Act.

2. The register book under Section 62 shall be kept in the form given in the fourth schedule of the Act.

3. Under section 62, the true extracts from the register book shall be deposited in the office of the Registrar-General of Births, Deaths, and Marriages on the 31st December of each year. A form of extract is given in Appendix I.

4. For form of indent see Appendix 7*d*.

Head VIII.—General Rule relating to the foregoing subjects.

1. All persons not being Government officers required to send in returns of the nature described in the foregoing rules, and also returns of births and death registrations, should forward all their communications connected with the duties of their office to Government, or to Government officers, in accordance with the following rule:—

Postage rule.

Communications sent by private persons to Government officials, relating to the affairs of Government and endorsed according to the specimen form given on the margin, under the full signature of the sender (the address including the full official designation of the public office to which the cover is sent), will be charged on delivery at the rate to which they would have been liable if prepaid by stamps. This rule is intended to provide for cases of zemindars reporting the occurrence of crime to a police officer, of employers of labourers sending returns required by the Protector, and of any similar reports or returns authorized to be so sent.

Service Bearing.

To
THE DISTRICT SUPERINTENDENT
OF POLICE,
LUCKNOW.

Signature of sender.

2. The Government will supply registers and forms to Marriage Registrars. It will supply the first full set of registers and forms to licensed ministers and to persons authorized to grant certificates of marriage between Native Christians, but subsequent supplies of registers and forms must be paid for at the Alipore Jail Press out of the fees received.

3. Indents for forms required by the Archbishop of Calcutta, and Vicar-General of the Portuguese Missions in Bengal, should be submitted by them to the Superintendent of Government Stationery.

Forms.

4. The Registrar of the Archdeaconry and Senior Chaplain of the Church of Scotland make their own arrangements for obtaining forms.

5. All other indents for register books and forms should be made by or through the Commissioner of the Division, or by or through the Senior Marriage Registrar, Calcutta, on the Superintendent of Stationery.

6. Forms of indent, containing lists of the books and forms for which each officer can indent, will be found in Appendices *7a* to *7d*.

ORDER.—Ordered, that a copy of this Resolution be forwarded to all Commissioners of Divisions for their own information and guidance, and for circulation to Senior Marriage Registrars, to Marriage Registrars, and to Ministers licensed or otherwise legally authorized to solemnize marriages within their respective divisions. A list of Marriage Registrars (other than district officers) and of licensed Ministers is herewith forwarded.

Also, that a copy of this Resolution be forwarded to the Registrar General of Births, Deaths and Marriages, Calcutta, and to the Senior Marriage Registrar, Calcutta, for their own information and guidance, and for circulation to Marriage Registrars and to Ministers licensed or otherwise legally authorized to solemnize marriages within their respective jurisdictions.

Also, that a copy be forwarded to the Ven'ble the Archdeacon of Calcutta, with a request that he will be so good as to cause the Resolution to be distributed among Chaplains and Clergymen acting under the Bishop's license in Bengal.

Also, that a copy be forwarded to the Registrar of the Archdeaconry for information.

Also, that a copy be forwarded to the Most Reverend the Archbishop of Calcutta for information.

Also, that a copy be forwarded to the Very Reverend the Vicar-General of the Portuguese Missions in Bengal for information

Also, that a copy be forwarded to the Senior Chaplain of the Church of Scotland for information.

Also, that a copy be forwarded to the Superintendent of Stationery for information.

Also, that a copy be forwarded to the Accountant-General for information.

By order of the Lieutenant Governor of Bengal,

P. NOLAN,

Secy. to the Govt. of Bengal.

AUSTRALIA—SOUTH.

PORT ADELAIDE.

Leading Lights—Semaphore Anchorage.

IN continuation of Notice to Mariners, No. 63, dated the 31st October 1888, further notice has now been given by the Secretary, Marine Board, Port Adelaide (No. 13 of 1888), that on and after the 1st December 1888 two Red Lights will be exhibited ashore, one from the Time-ball Tower, and the other from the Flagstaff at the shore end of Semaphore Jetty.

These Lights in line, bearing S. E. ½ S., lead through the deepest water in the Semaphore Anchorage, and up to the Ocean Steamers' Mooring Buoy.

Directions.

By Night.—Vessels approaching the Anchorage should not bring the Port Adelaide Light to the North of N.-E. until the above Lights are in line, then steer in on that line with the lead going until the requisite water is found, or the Mooring Buoy is picked up. When the red light, east of the Light-house, is just closing with the Bright Light on No. 11 Beacon, the vessel will be close to the Mooring Buoy.

The leading Lights will not show South of the Bell Buoy on the Wonga Shoal, so that vessels of suitable draught, which do not intend to use the Mooring Buoy, may steer in for any part of the anchorage as soon as the two Red Lights are visible.

By Day.—Keep the Light-house on the same bearing until the Time-ball Tower and the Water Tower are in line, then proceed as above.

By direction of the Government of Bengal,

EATON W. PETLEY,
Offg. Port Officer of Calcutta.

No. 345, dated Simla, the 8th November 1888.

Memo. by—S. W. EDGERLEY, Esq., Offg. Under-Secretary to the Govt. of India, Home Department.

COPY of the following forwarded to the Government of Bengal for information.

No. 58 Stats. and Commerce, dated India Office, London, the 13th September 1888.

From—Her Majesty's Secretary of State for India,
To—His Excellency the Right Hon'ble the Governor-General of India in Council.

MY LORD,—I forward, for Your Excellency's information, copy of a letter received from the Foreign Office, relative to the outbreak of yellow fever in Cayenne and the quarantine against that Colony.

No. 35, dated British Consulate, Cayenne and Surinam, Paramaribo, the 24th July 1888.

From—WILLIAM WYNDHAM, ESQ.,
To—The MOST HON'BLE THE MARQUIS OF SALISBURY, K. G.

I HAVE to report that three days after my departure from Cayenne, yellow fever again broke out there, and the Colony has since been quarantined. I am in consequence again unable to go there at present. I regret also to inform Your Lordship that Monsieur Andrada, Consul-General for Brazil at Cayenne, who kindly agreed to act for Mr. Wacongoe, when it was found impossible for me to remain at Cayenne, has since then committed suicide, and that Mr. Wacongoe will leave his clerk in charge on his responsibility during his absence, the Governor of French Guiana having agreed to this arrangement.

In making this report, I would beg to state that the Colony of Cayenne has only been free from epidemic yellow fever for 16 months in four years; and the French Government now appoint coloured Creoles to the Government Offices there, including the Governor of the Colony.

NOTIFICATION No. 147Marine.

The 8th December 1888.

UNDER the powers vested in him by section 3 of "The Howrah Bridge Act, 1871," as amended by section 3 of the "Howrah Bridge Act Amendment Act, 1888," the Lieutenant-Governor is pleased to exempt all passengers, animals, vehicles, and goods using or conveyed on the Howrah Bridge from payment of the tolls, fees, and charges prescribed in the schedule attached to the first-named Act. This exemption will have effect on and after the 1st day of January 1889.

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday, if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 900 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 800 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted, Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the

year 1887-88, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 26th November 1888.—It is hereby notified that, under section 22, Act III (B.C.) of 1884, Brigade-Surgeon J. G. Pilcher has been re-appointed to be a Commissioner for the Darjeeling Municipality.

H. J. S. COTTON,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 7th December 1888.—It is hereby notified for general information that, in exercise of the power vested in the Local Government by section 351 of Act III (B.C.) of 1884, and on the recommendation of the Commissioners of the Barripore Municipality, in the district of the 24-Pergunnahs, made at a meeting, the Lieutenant-Governor confirms the bye-laws set forth below, which have been framed by the Commissioners of the said Municipality under section 350 of the said Act:—

Bye-laws.

I. The ordinary meetings, as prescribed by section 38 of the Municipal Act, shall be held at the office of the Commissioners at a fixed hour of a fixed day of each month, to be decided upon at the last ordinary meeting of the preceding year.

II. A notice of the business to be brought forward at every meeting shall be circulated by hand or post to each Commissioner, and shall be hung up at the office of the Commissioners not less than three days before the date of the meeting.

III. Any Commissioner desirous of submitting any motion to the meeting must forward a copy of such motion to the Chairman not less than five days before the date of such meeting for incorporation in the notice of business. Such notices are to be filed in the office.

IV. At ordinary meetings the business shall be transacted in the following order, unless the President, with the consent of the majority of the members present, determine otherwise.

(*a*) The minutes of the last ordinary meeting, and of any special meeting since held, shall be laid before the meeting, and, if approved as correctly entered, shall be signed by the Chairman.

(*b*) Any business postponed from the last ordinary meeting.

(*c*) The business contained in the notice of the meeting prescribed by rule 2 above in the order in which it appears in the notice paper, unless the President with the consent of the majority of the members present, determine otherwise.

(*d*) Any additional business brought forward by the President with the consent of the majority of the members present, provided that any decision recorded or resolution adopted in regard to such business shall be subject to confirmation by the next ordinary meeting.

V. At an adjourned meeting no business, save that which the original meeting left unfinished, shall be transacted, except as provided in rule 7 below.

VI. At a special meeting, no business, save that for which the meeting was called, shall be transacted, except as provided in the following rule.

VII. Provided, however, that any additional business may be brought forward at an adjourned or special meeting, subject to the conditions of rule 4 (*d*) above, and also subject (in case of an adjourned meeting) to the full quorum required by section 42 of the Municipal Act.

VIII. Every motion or amendment shall be reduced to writing and seconded before being put to the meeting or debated. The mover of any motion or amendment may withdraw the same at any period of the debate.

IX. Every amendment shall be so worded as to form an intelligible sentence either alone or in its proper place in an original motion, as the case may be, provided that no amendment can merely negative the original motion.

X. The President may, for reasons to be entered in the minutes of the proceedings—

(*a*) rule that a motion or amendment is illegal or out of order :

(*b*) make such alterations in a motion or amendment, as shall, in his opinion, render it legal and in order ;

and may in case (*a*) refuse to put the motion or amendment to the meeting, and in case (*b*) refuse to put the motion or amendment to the meeting, unless and until the proposer and seconder accept the alterations so made ;
and the decision of the Chairman shall be final.

XI. In discussing questions coming before the meeting, a Commissioner shall rise when he speaks and address the President. At any time if the President rises, any Commissioner speaking, shall immediately resume his seat.

XII. After a motion has been moved and seconded, an amendment may be moved at any stage of the debate thereon.

XIII. On the discussion being concluded in the event of several amendments having been proposed, the President shall put the last amendment to the vote first ; if it is negatived, he shall put the last preceding amendment ; and lastly the first amendment ; and if all the amendments are lost, the original proposition shall be put to the vote.

XIV. When a motion or an amendment has been put from the chair and been declared by the President to be duly carried, no further proposals for amending the motion or amendment can be entertained.

XV. Unless not less than two-thirds of the Commissioners consent by signing a requisition, no subject once finally disposed of can be reconsidered within six months.

XVI. For the purpose of taking into consideration business involving many details, the meeting may resolve itself into a committee of the whole body.

XVII. Voting by proxy is prohibited, and no member may vote upon any motion or amendment unless he be present in person at the time when it is put to the vote.

XVIII. Protests must be limited to a concise and definite statement of the motives which prompted the votes of members who voted in the minority in a given question.

XIX. Protests duly made shall be appended to and published with the minutes.

H. J. S. COTTON,
Offg. Secy. to the Govt. of Bengal.

Hooghly Collectorate, the 7th November 1888. M. GUPTA, for Collector Hooghly.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned land formerly occupied by the Old Post-Office Bungalow, situated in village Sitarampur, within the jurisdiction of Ranigange sub-division, district Burdwan, will be put up to auction sale at the Burdwan Collectorate, on Saturday, the 12th January 1889, corresponding with 29th Pous 1295 B.S. The purchaser will be subject to the following conditions of sale :—

CONDITIONS OF SALE.

1. The land is to be sold as revenue-free to the highest bidder above the upset price fixed at the time of sale.
2. If the amount of purchase money does not exceed Rs. 100, then the whole amount is to be paid at once.
3. If the amount of purchase money exceeds Rs. 100 one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited by the purchaser being forfeited to Government) and the land is to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.
4. The possession of land is to be given to the purchaser after the confirmation of sale.

MIDNAPORE COLLECTORATE, the 28th November 1888. E. GEARE, for Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Dacca, will be put up to sale at the Dacca Collectorate on the 11th January 1889, corresponding with 28th Pous 1295 B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1*st*.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3*rd*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Number on the district roll.	Name of estate and pergunnah.	Approximate area in acres.	Government revenue assessed.	REMARKS.

Collector's Office, district Dacca, the 6th December 1888. T. INGLIS, for Offg. Collector.

NOTICE is hereby given that the right, title, and interest of Government, as specified in the conditions of sale below, in the Nispi land in village Durmoot, pergunnah Majnamoota, which forms the undermentioned estate, situate in the district of Midnapore, will be put up to sale at the Midnapore Collectorate on Saturday, the 12th January 1889, corresponding with 1st Magh 1296 A. S. The purchaser will be subject to the following conditions of sale :—

Conditions of sale.

1. The land comprised in the estate to be sold to the highest bidder above the upset price. The purchaser will be considered as the Nispi holder of the said land, and the entire right, title, and interest of Government in the land will be transferred to him, subject to the annual payment of the undermentioned Nispi rent and peshkush jumma to the proprietors of the temporarily-settled estate Majnamoota, which is now under direct management. The purchaser will have to pay no annual revenue to Government.

2. The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and the purchasers to be bound to respect the rights of the resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3. If the amount of purchase-money do not exceed Rs 100, the whole amount to be paid down at once.

4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Municipal Loan.

THE Municipal Commissioners of Bhagulpore have been authorised by the Government of India to raise in the open market a loan of Rs. 50,000, repayable in 37 half-yearly instalments, with interest at 6 per cent. per annum, in order to complete their water-supply scheme.

2. The yearly income of the Municipality is Rs. 45,837 even without a water-rate. There is no other loan outstanding, and by section 68 of the Bengal Municipal Act the Municipal Commissioners are bound to make the payments on account of this loan the first charge on the annual income.

3. Tenders for the whole or any part of the said amount of Rs. 50,000 will be received by the undersigned up to noon of 15th January 1889. Tenders must be in sums of Rs. 100 or multiples of Rs. 100. They should be enclosed in a closed cover superscribed "Tenders for six per cent. Bhagulpore Municipal Loan."

4. The rate at which each tender is made must be specified in rupees or rupees and annas.

5. Tenders will be opened publicly by the Chairman at noon on the 15th January 1889. They will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders: provided that no allotment will be issued if the amount distributable on any tender is less than Rs 100.

6. The whole amount of each allotment will be divided into two instalments—

50 per cent. payable on or before 1st February.
50 per cent. payable on or before 1st March.

7. When any allotment certificate is fully paid up, the holder will obtain from the Municipal Office promissory notes of such value as he may desire (each note being in even hundreds) bearing interest from 1st April 1889, and he will also receive interest at 6 per cent. per annum from the date on which he may have made payment up to 31st March 1889.

NOTICE.

IT is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,
Under-Secy. to the Govt. of Bengal.
The 24th November 1886.

The following revised advertisement is published substitution for that which appeared at page 1084, Part of the *Calcutta Gazette* of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st April 1888, the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

RESOLUTION ON THE REPORT OF THE ADMINISTRATION OF THE ECONOMIC AND ART SECTION OF THE INDIAN MUSEUM, 1887-88.

REVENUE DEPARTMENT—MISCELLANEOUS (F.)

Calcutta, the 10th December, 1888.

RESOLUTION.

READ—

The Report of the Trustees of the Indian Museum on the Economic and Art Section of the Indian Museum for the year 1887-88.

The Report of the Assistant Curator of the Economic and Art Section of the Indian Museum, on the Economic and Art Museum, was submitted to Government with remarks by the Trustees of the Indian Museum on the 21st November, 1888.

Under the provisions of Act IV of 1887, the Trustees of the Indian Museum received charge, on the 1st April, 1887, of the collections of the late Bengal Economic and Art Museum.

The year was mainly devoted to the arrangement of the collections in classes and sub-classes under the three main heads of Art Manufactures, Economics, and Ethnology. Want of accommodation and of funds, however, prevented much progress in this direction.

Three hundred and seven articles were added to the Museum during the year, the greater number of which were presented to the Museum on their return from the Indian and Colonial Exhibition of London. A beautifully embroidered harness and saddle-cloth, worth Rs. 600, belonging to Maharajah Krishna Pertap Sahee Bahadur of Hutwa, in the district of Sarun, is amongst the number. A figure of Buddha in bronze, costing Rs. 75, and an illuminated Pali manuscript, costing Rs. 120, were purchased from the Museum funds. A large number of economic products, 252 tin specimen cases, and 220 strong tin-boxes containing surplus specimens of economic products, were received from the Government of India. In the Ethnological Branch, the most important addition was that of thirty-six life-sized new models of Indian races. Forty-one specimens of peasant jewellery and fifty other specimens were returned from the Colonial and Indian Exhibition in London. The arch formed from the specimens of Indian timbers in the late Bengal Economic Museum, and exhibited in the London Indo-Colonial Exhibition, has since been returned, and the timbers will now be separated and arranged. No addition was made to the "Industrial Court," which contains a collection of European manufactures presented to the Government of Bengal by the exhibitors at the Calcutta International Exhibition of 1883-84.

Collections of economic products were sent to the Governments of Bombay and the North-Western Provinces, to the Administrations of Burma and the Central Provinces, to the Australian Colonies of Victoria, New South Wales, South Australia, and Tasmania, and to the Government of Russia.

The Lieutenant-Governor notices with pleasure that the Trustees are in communication with gentlemen in Europe and Australia for the purpose of obtaining specimens of art manufactures and economic products from those countries, and that they have asked the co-operation of the Government of India in obtaining a list of wholesale prices of the least known products in all parts of India. It is also noted with satisfaction that the Trustees have arranged for the exhibition and sale, by local dealers, of selected articles of economic and art value, in an annexe of the Museum.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

RESOLUTION ON THE DAMAGE CAUSED BY FLOODS IN THE DISTRICTS OF BURDWAN, NUDDEA, HOOGHLY, MIDNAPORE AND 24-PERGUNNAHS, AND ON THE ENGINEERING QUESTIONS INVOLVED; WHETHER THE CONSTRUCTION OF ESCAPES FOR THE RELIEF OF THE FLOODED TRACTS IS PRACTICABLE AND WHETHER THE MAINTENANCE OF THE EMBANKMENTS IS EXPEDIENT.

Letter from Officiating Commissioner of the Burdwan Division to the Secretary to the Board of Revenue, No. 40R.G., dated 22nd September 1888, and enclosure.

Letter from the Secretary to the Government of Bengal, Revenue Department, to the Commissioner of the Burdwan Division, No. 3305—135Fam., dated 2nd October 1888, and enclosure.

OBSERVATIONS.—In the above correspondence the damage caused by floods in the districts of Burdwan, Nuddea, Hooghly, Midnapore, and the 24-Pergunnahs from the Bhaghirathi, Adjai, Damooda, Darkesur, Selye, Cossye and Rasulpore rivers and their affluents during the last rains has again been brought very vividly to the notice of Government. The injury and distress caused by these floods has excited much sympathy and public interest, and it seems desirable to take this opportunity of bringing together, in connection with three of the most important of these flood questions, the facts and considerations which have influenced the Government in their treatment of them, and at the same time to correct some prevalent misapprehensions as to the nature of the problems involved in the erection and maintenance of embankments and as to their permanent effect in providing for the security of the country supposed to be protected by them. It will be seen that the question is a much larger one than that of the mere repair or renewal of embankments, as appears to be frequently supposed.

2. Perhaps the best way to do this will be to explain first of all what would be the result were nature left to herself as regards these floods, and what is apparently the result when she is interfered with, and then to take the typical cases referred to and review briefly how matters stand as regards the floods of the Damooda, the Coosye and Selye, and the Rasulpore, and show how far investigations have been carried, what remedies have been proposed, and what is being done or proposed to be done to obtain a solution of the difficulties.

3. All the rivers in this part of Bengal are more or less heavily laden with silt and sand whilst in flood, and in the ordinary course of nature they would, by overflowing in shallow gently-moving streams at numerous points along their course as the flood topped the natural banks, deposit this mixed finer sand and silt over the country, and thus gradually and beneficially raise it; whilst they would be at the same time *very* gradually raising their own beds by the deposit, more or less evenly, along their courses of the coarser sand which they carried forward in their own channels. But when by parallel embankments a river is prevented from overflowing, the effect is to force it to carry all the silt and sand down its own channels: this state of things tends to the silt being carried further forward by the higher velocity maintained in the channel, on account of the greater volume of water carried within it; but eventually the silt has to be deposited in the channel itself as soon as the velocity is checked. Apparently this takes place chiefly at the point where the tides are met, and thus a bar is formed which gradually extends upwards, the retarding influence being felt higher and higher up the river as the bar extends upwards. The esult is increasingly rapid deterioration of the channel, since a continually

larger quantity of the sand and silt in suspension is deposited in the channel itself. This necessitates a further raising and strengthening of the embankments confining the floods, whilst the river-bed, and with it the flood-level, continues to rise. And thus the fight is maintained until eventually not only the flood-level, but the bed of the river itself, is above the level of the country protected by the embankments. It is not difficult to understand, when this stage is reached, how terrible must be the result should a breach occur during a high flood in these greatly raised embankments, and the water flow over the country not in a gently-flowing shallow stream of perhaps two or three feet depth, depositing fertilising silt everywhere, but in a devastating flood, several feet in depth, overwhelming what has now become, in comparison with the river, a low-lying country, causing loss of life by its suddenness and violence, destroying crops by its depth and erosive action, and injuring land by depositing over large areas a stratum of unculturable sand—unculturable at any rate until other more moderate floods have in their turn covered the sand with a deposit of silt.

4 *Inundations on right bank of Damooda.*—The fact that the channel of the Damooda below Beghooa was incapable of carrying the volume of its own floods was placed on record in 1855, when, after many years of discussion, it was decided by an order of the Supreme Government that 20 miles of the right embankment (except certain detached portions, which were allowed to remain) above that point be removed; and this order was carried into effect in the years 1856 to 1859. The wisdom of this measure is confirmed by the Lieutenant-Governor in a letter to the Secretary to the Board, to be found at page 131 of Selections from the Records of the Bengal Government, No? XL, papers of 1859—63. There is no doubt, however, from the fact that a considerable portion of this length of 20 miles now has embankments upon it, that in subsequent years the order was evaded and its good effects were rendered nugatory by the construction of bunds which were run up, without the permission of this Government, along the right bank, and took the place of the old right embankment. Such was the position of affairs when the question of closing the Janculi breach came prominently forward in 1885, and it cannot be better summed up than in the orders of Government to the Commissioner of Burdwan, No. 452*I.*, of the 12th March 1885, which is reprinted for information in the margin. Subsequently, a petition was submitted to the Government of India

No. 452*I.*, dated Calcutta, the 12th March 1885.

From—Lieut.-Col. J. M. McNeile, R.E., Joint-Secretary to the Govt. of Bengal, Public Works Department,

To—The Commissioner of the Burdwan Division.

I am desired by the Lieutenant-Governor to acknowledge the receipt of your letter No. 110, dated 19th December last, on the subject of a breach in the Janculi embankment on the right bank of the Damooda, and the damage caused by the spill of flood-water at and near that place, and in reply to make the following remarks.

2. As noted in your letter, the restoration of the embankments on that bank of the river has been pronounced objectionable by the Engineers who have thoroughly investigated the question, but it will be well here to explain briefly the reasons for this objection.

From calculations of the slope of bed and of the waterway of the river, it is known that the total possible discharge between the embankments below the great bend of the river east of Burdwan is (approximately) 150,000 cubic feet per second, while the volume brought down by the river during a heavy flood is about 350,000 cubic feet, and there is consequently a total spill over the bank of about two lakhs of cubic feet per second escaping at various points below Sangatgbola (a few miles above and on the opposite side to Joojooty).

It is quite clear, then, closing the breaches at and below this point with anything like really effective embankments would only cause worse and possibly more disastrous breaches lower down. The water cannot be kept within bank or embankment limits down to the mouth of the river. It was to reduce the average depth of the flood passing over the country that the removal of 20 miles of embankments was ordered in 1856 59, and the same argument is equally valid now.

3. Turning next to your suggestion to provide outlet channels, you will see that this would involve the construction of a new river capable of carrying in extreme flood 200,000 cubic feet per second, or larger than the actually existing channel of the Damooda itself. To prevent the risk of an excess of water passing down this channel, and to send the required amount down it to relieve the Damooda, a very extensive regulator would be necessary at the bifurcation, and the new channel must be carried down to the Hooghly, as neither the Damooda itself lower down, nor the Roopnarain, could carry off such an additional volume: the new channel or river would therefore have to be some 60 miles in length.

All this would involve an outlay in work and land which it is not worth while attempting to estimate, and it must be recollected that in the case of any partially remedial measures, there would certainly in some year or years be loss caused where there is none now, or where it cannot be laid to the charge of any specific work. As soon as ever there was an excuse for charging any Government channel, or embankment, or want of embankment, demands for compensation would pour in, and it is impossible to guess even what Government might be compelled to pay on this account.

4. It is not denied that the existing floods cause some damage, nor is it argued that such a spill as is under consideration ever occurs without in some cases serious flooding and loss of crop, but the floods are not wholly detrimental. The flow of water is in some years and in some places such as to drown or even wash away portions of the crops; but if this occurs early in the year, a second crop is successfully grown, and in any case a large quantity of fertilising silt is spread over miles of country beyond the special tracts in which devastating floods are now complained of, and a gradual and very important and beneficial raising of the level of the country is in progress.

5. On a full consideration of all the facts of the case, the Lieutenant-Governor is of opinion that it is more than doubtful whether any practicable measures in the direction of partial remedy of the flooding complained of would not result in more harm than good; that nothing at all could be done except at great expense, for which there would be no return, while the entire outlay would have to be borne by Government; and that it is certain that any works executed would undoubtedly give rise to complaints elsewhere quite as loud as those now made and possibly more valid. His Honour is therefore unable to reconsider the orders passed on the subject of non-reconstruction of the Janculi and other embankments on the right bank of the Damooda, or to entertain proposals for any drainage works to carry off the flood spill into other lines than those through which it now gradually finds its way down to the Hooghly.

regarding the Janculi breach, and that Government, after learning what the Government of Bengal had to say in the matter, returned it with some suggestions, leaving the matter, however, entirely at the disposal of the Government of Bengal.

5. An enquiry was thereupon ordered to be made as to whether it would be possible, by the removal of certain portions of the embankments on the right bank of the river immediately above the Janculi gap, to alleviate the damage caused by the rush of the river flood-waters through it, while maintaining at the same time the decision already arrived at by Sir Rivers Thompson that the breach could not be closed. The enquiry was duly made, and on the information then obtained, the Superintending Engineer, Mr. Vertannes, came to the conclusion that the breach ought, if possible, to be closed, firstly, because of the great increase in the injury caused by the floods passing through a narrow deep gap since he had last seen the place in 1884, and, secondly, because there was a fear of the gap and its channel becoming in a few years a deep stream like the Beghoa khal, a little lower down the river, inasmuch as there were signs of the bed of the Damooda below the breach having become raised during the past three years, which must of course tend to increase the volume of water escaping by the gap. To provide for the surplus spill, he recommended the removal or lowering of embankments immediately above the breach, many of which as already mentioned were said to be zemindari bunds put up, surreptitiously or otherwise, in lieu of the old embankments on the right bank. At the same time in the absence of surveys, Mr. Vertannes was not prepared to suggest where the embankments above Janculi should be removed or lowered, and he requested sanction to the necessary surveys, and gave Rs. 30,000 as the rough estimate of the proposed works. The survey was sanctioned.

6. On the completion of the surveys, Mr. Vertannes reported that, though he still considered it desirable to close the breach, it would be very inadvisable to provide for the surplus water by lowering the embankments anywhere above Janculi, since, on account of the lowness and rapid fall in the country at the point where he had thought such a course might be possible, he found that it could not be done with safety and without incurring a grave risk of transferring all the evils of the Janculi breach to the new site. Nor was it possible to go higher up the river, since the continuous line of villages along the right bank made an adequately extensive lowering impracticable. Another alternative which had suggested itself, viz., the removal of the Calara village immediately beyond the breach, was abandoned, partly on account of the inadequacy of the relief to be obtained, and partly on account of the cost. A third suggestion has been made which was, firstly, to partially close the breach by the construction of an oblique embankment commencing from the existing embankment above the breach, crossing and blocking the channel leading to the Bachoordah khal and then extending to the village of Dunga-Faridpore, leaving an open space for the modified spill between the latter village and that of Arasul; secondly, the removal of the zemindari embankment above Calara so as to give a wider opening to the spill waters; and, thirdly, the clearance of the silt in the Bachoordah khal so as to enable the spill to pass off towards the Beghoa khal.

7. This last proposal promised well, and orders were given for its further investigation and the submission of an estimate. This was submitted, though in very rough form, and showed the probable cost as Rs. 30,000. There are, however, grave doubts as to the advisability of closing the breach even in this modified way. It has to be remembered that the primary reason for the refusal to close it or allow it to be closed was the necessity for maintaining the embankment on the left bank of the Damooda, which protects the country between the Damooda and the Hooghly rivers, as a breach in that would cause incalculable damage, and it cannot be doubted that the closing of the Janculi breach would certainly render the maintenance of that embankment very difficult, if not impossible; for, as already explained, the Damooda cannot carry its own floods below this point, and the closure of the Janculi escape would cause such an increase in the volume of the water and rise in the flood-level as inevitably to lead to some breach on the embankment elsewhere, and very probably on the more important left bank of the

river. Were it not for this latter fact, there is no question that the breach ought to be closed, since there is but little doubt that the bed of the river is deteriorating to some extent, though not wholly, on account of the existence of the breach, which, in relieving the river of a portion of its flood discharge, causes a sudden reduction in the velocity (and consequently capacity for carrying sand and silt in suspension) of the latter, and thus induces the deposit of the sand borne along by it. Again, it is quite probable that the carrying out of the modification proposed would in the end, although after a longer lapse of time, equally lead to a destructive breach in the left embankment, for with the water passing off at the reduced velocity that it will have if the scheme is a success, the ground on the right bank is certain to be raised by the deposit of sand and silt, and the breach will thus be as effectually closed in the end as if the embankment were repaired.

8. On the other hand, if the breach is kept open, though the raising of the low lands will certainly be carried out more rapidly, yet a more permanent relief may by this means be secured for the protective embankments on the left bank of the Damooda; for it is probable that, as foreseen by Mr. Vertannes, this breach will become a deep stream like the Beghoa khal. For a time this would undoubtedly have an evil effect on the country, but it is by no means certain that the evil would be an unmixed one; the permanent raising of the depression would in the end be found very profitable to the people.

9. To arrive at a right conclusion, however, on these points, more information is necessary than is at present available, and an examination of even that which is available has thrown grave doubts on the trustworthiness of some portions of it, and there is no doubt that Mr. Vertannes' estimate of Rs. 30,000 for his latest proposals is considerably below what the cost would be. Nothing but an extended and complete survey of the country between the Damooda on the one side, and the Darkesur and Roopnarain on the other, and between the latitudes of Janculi and the junction of the Bakshi khal with the Roopnarain, will suffice to establish the safest outlet for the spill waters which must undoubtedly be allowed in one way or another to escape from the channel of the Damooda at this point, and it is on the nature of this outlet that the whole problem turns. Moreover, the possibility of improving the Roopnarain itself, both in the interests of the Damooda and the Cossye and Selye rivers, will probably require investigation. Again, further observations of the results of the floods of 1887 and 1888 on the Damooda itself will probably aid in guiding to a right conclusion as to the proper course to adopt should it be decided to reverse the orders of 1885. It appears, however, necessary distinctly to state that, for the reasons set forth in those orders, there is at present no ground for hope that the breach can be entirely closed. All that can be hoped for is that the water allowed to spill from the Damooda river, while not being reduced in volume, will be made to pass out with a lesser depth and reduced velocity, and thus carry with it a largely diminished quantity of *sand*.

10. *Inundations about Ghattal.*—These are caused by the Cossye and Selye floods The catchment areas of the two streams lie side by side in a country of ridges and low hills of laterite formation, the eastern edge of which is roughly defined by a line drawn through Chandrakona and Midnapore. After debouching from the laterite tract, they cross a strip, some 40 miles in width, of low-lying country of recent formation, before the junction of the Selye with the Rupnarain and of the Cossye with the Haldee. In passing over this strip, the two rivers become essentially deltaic; their paths are uncertain and tortuous, and the existence of disused river beds and of many spill-channels shows how, as their main channels deteriorated, they sought fresh outlets for their flood waters. Both come under tidal influence towards the lower portions of their courses. One important spill channel, now known as the Old Cossye, connects the two, leading in times of flood the surplus waters of the Cossye into the Selye basin, and it is estimated that at such times the quantity of water which is poured by the Cossye over its left bank (at this place unembanked), and which finds its way either over the country or by the "Old Cossye" channel into the Selye, is as much as 80,000 cubic feet per second.

11. Nowhere are the evils caused by premature and excessive embanking already described in these observations more forcibly brought to view than in the Selye-Cossye deltaic tract. The Selye, with its own floods augmented by the surplus of the Cossye, is called on to discharge some 200,000 cubic feet per second through a narrow outlet which will only carry 31,000 cubic feet. The consequences, which are now becoming of almost annual occurrence, are a wholesale breaching of the embankments, and a complete inundation of some 75 miles of low-lying country about Ghattal. Embankment breaches also take place about Panskura on the lower Cossye, and in 1876 crops over 43 square miles were injured. Since that year, however, the inundations about Panskura have not been nearly as disastrous. Owing to the connection between the two rivers, any comprehensive scheme for the treatment of one river must include the other within its scope. The problem has now been prominently before Government for many years, and recently much labour and anxiety have been devoted to its solution, as can be seen from the following brief summary of the successive investigations which have been made.

12. As early as 1867, the floods of the Selye were the subject of detailed enquiry, and an elaborate scheme for their treatment was worked out by Captain Smythe, who concerned himself chiefly with the upper river, proposing to subdue its violence by a series of storage reservoirs, and by means of these reservoirs to supply a system of irrigation canals, which formed a part of the scheme. Of these proposals it is unnecessary to say more than that they involved many points of doubtful engineering and financial expediency, and that no orders were passed on them by Government.

13. In 1877, the lower Cossye attracted attention by reason of the great breach which had occurred in its left embankment at Juggutpur, a point about six miles above Panskura, and through which some 43 square miles of country had in the preceding year been devastated by floods. At that time the Selye and Cossye were in charge of different Executive Engineers, and Mr. Apjohn, dealing with the Cossye separately, submitted a project for relieving it by means of an escape channel, to be cut from Juggutpur to the Topa khal, whence the flood water would find an outlet through the Dourbachetty khal. into the Rupnarain. The cost of these proposals was estimated at 3½ lakhs They received only partial approval from Colonel Haig, the Chief Engineer, who referred them back for further information.

14. Meantime, and before any decision had been formed on this project of a separate escape for the Cossye at Juggutpur, the disastrous breaching by floods of the embankments of the Salye, and consequent inundations of the country about Ghattal, led, at the end of 1877, to the appointment of the Selye Embankment Committee, composed of Mr. Harrison, the Collector of Midnapore, and Messrs. Whitfield and Anjohn, the Engineers respectively in charge of the Selye and Cossye embankments. The recommendations of this Committee recognised the intimate connection between the deltaic portions of the two rivers, and aimed at a comprehensive solution of both flood problems. As regards the Cossye, the proposal, which had hitherto found favour, of relieving that river, by means of an escape at Juggutpur, was abandoned; the alternative plan adopted by the Committee being the construction of a weir across the Cossye below Kapastikri, which is the point at which the "Old Cossye" spill channel branches off from the main channel. By means of this weir the discharge of the Cossye proper past Kapastikri could have been regulated, and only some 30,000 cubic feet per second, which is the quantity which can be safely carried between the Panskura embankments, would have been allowed to go forward towards Panskura. A second consequence resulting from the construction of the Kapastikri weir would have been to increase by some 10,000 cubic feet per second the volume of the spill already discharged by the Cossye over its left bank at Kapastikri. This spill discharge was calculated at as much as 105,000 cubic feet per second, of which some 80,000 cubic feet probably fell by the line of the "Old Cossye" into the basin of the Selye. However, in the proposals of the Committee for the relief of the Selye floods, this additional discharge was taken into account. Their main recommendation for the solution of the whole question was the construction of an escape half a mile in width and 12½ miles in length across the circuit enclosed by the Chetooa embankment, leading from the Selye at Harinarianpore to the Rupnarain at Gopigunge. The

calculated discharge of this escape was 80,000 cubic feet per second; and the cost of carrying out the entire proposals of the Committee was estimated at over twelve lakhs, of which rather more than one lakh was for the Kapastikri weir. The Committee also made detailed suggestions on the distribution of the cost of the proposed works among the tracts benefitted.

15. On the receipt of the report containing these recommendations, it was considered advisable to have an independent investigation of the question made by a specially qualified officer, and Mr. Rhind, Executive Engineer, was deputed for the purpose. In the general scheme of treatment proposed by the Committee Mr. Rhind concurred, agreeing with them in advocating the construction of a large escape channel from Harinarainpore. But his estimate of the flood discharge which the escape must carry was greatly in excess of the estimate formed by the Committee. He also thought that a deep-channel escape, connecting the beds of the Selye and Rupnarain, would be preferable to the surface-channel which they had proposed; while the re-alignment of several embankments, for the purpose of giving more complete protection to the country, formed part of his plan. His estimate of the cost of relieving the whole inundated tract amounted to more than thirty-six lakhs, including all charges. Of this sum seventeen lakhs was the estimated cost, exclusive of indirect charges, of constructing the Harinarainpore escape and weir. Four alternative projects, modifications of his main scheme, were at the same time submitted.

16. At the end of 1878 Colonel Haig, the Chief Engineer, reviewed the whole question in the light of the information which had been thus collected. The escape proposed by the Embankment Committee was designed to carry 80,000 cubic feet per second; the discharge of that designed by Mr. Rhind was 180,000 cubic feet per second. Colonel Haig thought that, if the escape was to be constructed at all, it should be constructed to carry 120,000 cubic feet per second; and he estimated its probable cost at between sixteen and seventeen lakhs. One great blot, however, he discovered, common to both the proposals before him; this was the extreme danger, if not the certainty, of the ultimate obstruction by silt of an unprotected escape-channel, like either of those designed. Not only, he thought, was the entrance of silt at the head of any such channel to be feared; the chief danger would be at its outfall into the Rupnarain, where the strong flood-tides of the river, backing up the channel, would speedily choke it and be fatal to its efficiency. In consequence of this defect, Colonel Haig condemned both projects, and he recommended that investigations should now be made into the expediency of sweeping away existing embankments, either in whole or in part, as the least injurious alternative in the end.

17. The enquiry thus took a fresh departure, and was pursued by Mr. Hughes, Executive Engineer, on the lines indicated by the Chief Engineer. Mr. Hughes found that by abandoning certain embankments and constructing others, it would be possible to provide a new spill area of 50 square miles for the Selye across the circuit of the Chetoon embankment into the Rupnarain. It was admitted that this scheme, whatever might be its ultimate effects, meant the immediate abandoning of 50 square miles in one place in order to reclaim 60 square miles in another. Mr. Vertannes, the Superintending Engineer, in forwarding the proposals, recorded his opinion that it was now too late to attempt the removal of the embankments; and he considered that an escape on the lines originally proposed by Messrs. Whitfield and Apjohn was the only practical solution of the problem. He admitted the danger, already pointed out by Colonel Haig, of silt-obstruction at the mouth of the escape arising from tidal action; but he thought that it was possible to guard against this by constructing protective works at the outfall into the Rupnarain. The character of these protective works is not indicated in Mr. Vertannes's note; but it is necessary to say here that the cost of any outfall sluice, designed both to discharge 120,000 cubic feet per second, and at the same time to exclude the flood tides of the Rupnarain, would be so enormous that the possibility of constructing it must be at once dismissed from the mind.

18. In 1883, Mr. Levinge, then Chief Engineer, recorded an opinion on Mr. Vertannes's note, as follows:—"I do not think any effective escape can

be constructed. It would certainly silt up. I see nothing for it but to let the whole thing alone, as without enormous expenditure, which this Government cannot afford, no real good can be done, whatever direction the improvements take; whether in the removal of embankments, or in further embanking."

19. Another question, first raised by Mr. Vertannes, is that of the capability of the Rupnarain to carry at once the Selye as well as the Damooda spill, if by the construction of an escape channel, or by the removal of embankments, the Selye floods are given direct access to the Rupnarain. Mr. Vertannes urges the necessity of a detailed survey of the latter river before the site of the lower terminus of an escape is fixed. This survey could be carried out at the same time as that of the country between the Damooda and Rupnarain, of which the necessity has been indicated in paragraph 9 of these observations, and would form part of the same enquiry.

20. Thus, to sum up the results of the investigations into the Cossye-Selye flood question, at the stage to which they have been carried, it will be seen that remedies, costing from twelve lakhs upwards, have been proposed, but among them there is not one that could be trusted to remain efficient for more than a year or two. The evil recurs with increasing force every year. Probably the ultimate solution will be similar in character to that partially adopted in the case of the Damooda, namely, to make a more or less clean sweep of the embankments, and to allow nature to re-assert herself.

21. *Inundations about Contai.*—Here the drainage is blocked over some three or four hundred square miles, and crops injured or destroyed over about one hundred square miles. The causes of the obstruction were examined by Mr. Vertannes last year, and shown to be of comparatively recent origin. It was shown that the silting of the tidal creeks—notably the Bagda and Mydakhalli khals, which unite to form the Russulpur river at Kalynuggur—was due to the excessive land reclamations which have been carried out during the last fifteen years. These creeks for seven or eight months of the year discharge little or no natural drainage; but so long as the low country lying about them was, comparatively speaking, unembanked, the flood-tides swept freely over it; while, with the return of the ebb, these accumulated waters were poured back into the channels with redoubled force, and so scoured them out. By this simple process, the creeks were maintained by nature in an efficient state to discharge the drainage of the monsoon. During recent years, however, the large tidal basin has been embanked and reclaimed. The consequence is that the tidal waves are headed back by the embankments, and deposit their silt in the beds of the creeks, which are rapidly rising above the level of the country which they formerly drained. Thus, after heavy rainfall, not only is the whole of the reclaimed country thrown out of cultivation, but the drainage of more inland tracts is blocked, and their crops also are damaged and destroyed.

22. Mr. Vertannes, in his report, proceeded to discuss the only remedy which he thought possible, namely, to divert, by means of flood escapes, a part of the discharge of the Kaliaghye river and the Bagdye khall into the Mydakhallee and Bagda creeks. These last were formerly the two chief outlets for the floods of the rainy season. To restore them, some silt clearance may first be required; but it is hoped that the action of the escapes will complete the process, scouring the channels, and maintaining them in their old condition.

23. Such is the scheme outlined by Mr. Vertannes, who warned Government that it would not only be a very difficult, but a very expensive, project. It has been so far approved that an estimate for the cost of the necessary surveys has been sanctioned, and the Executive Engineer is at work on the details. It is expected that the scheme will shortly be submitted in a complete form.

RESOLUTION.—His Honour the Lieutenant-Governor is of opinion that the only course to take now is to direct that the surveys and enquiries indicated in paragraphs 9 and 10 of the foregoing observations should be carried out without delay; and that final proposals be prepared, either for dealing with the questions in a comprehensive form, or for finally abandoning as hopeless all further attempts at solving them. The scheme described in paragraph 22 should also be

submitted as early as possible. These matters will therefore at once be taken up by the Irrigation Branch of the Public Works Department, where the necessary orders will be issued.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette*, and that copies be forwarded to the Commissioners of the Burdwan and Presidency Divisions, and to the Superintending Engineer, South-Western Circle; to the Revenue and Financial Departments of this Government; and the Board of Revenue, Lower Provinces.

By order of the Lieutenant-Governor of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE PORT OFFICER OF CALCUTTA FOR THE YEAR 1887-88.

No. 2118Marine.

GOVERNMENT OF BENGAL—PUBLIC WORKS DEPARTMENT.

Dated Calcutta, the 10th December 1888.

RESOLUTION.

READ—

The Annual Report of the Port Officer of Calcutta for the year 1887-88.

The report is submitted by Lieutenant E. W. Petley, R.N., who took over charge of the duties of the Port Officer at the close of the year under review, on the retirement of Captain Stiffe.

2. The strength of the Pilot Service at the close of the year was 86, consisting of 67 qualified pilots of all grades and 19 leadsmen apprentices. The number of qualified pilots at the opening of the current year was therefore 7 in excess of the sanctioned scale.

3. A change was made during the year in the management of the leadsmen's quarters at Garden Reach. Mr. Mignon, the Superintendent, obtained six months' leave, and, on the expiry of that period, resigned his appointment. On his proceeding on leave, the formation of a Mess Committee, consisting of a Mate Pilot and two junior officers, assisted by a clerk to keep the accounts of the establishment, was sanctioned as an experimental measure, and this arrangement having worked satisfactorily, its continuance was sanctioned to the end of the current financial year, when a further report will be submitted.

4. The size and draught of the ships visiting the port continues to increase; there were 832 clearances inwards and outwards of vessels drawing over 21 feet, as against 780 in the previous year. The effect of this increase was to place a larger number of vessels within the limits of the tonnage allotted to the Branch Pilots, and the charges to be adopted for the relief of the Mate and Junior Master Pilots were at the close of the year under the consideration of a Committee appointed by the Government. The number of arrivals exceeded that of the previous year by 27; that of departures fell off by one. There was an improvement in the total tonnage of vessels arriving at, and departing from, the port, and the gross tonnage, 4,466,969, was the largest on record.

The above figures are exclusive of 11 light vessels, 16 pilot and 45 other Government vessels, six other vessels and eight steam-tugs which are constantly moving up and down on the river, and also of the steamers trading to the Orissa ports. Of these there were 249 arrivals and 248 departures. Native craft are also excluded.

5. There were 50 cases of grounding and 10 collisions against 52 and 11 in the year before. One case of grounding resulted in the loss of the vessel, but the pilot was not to blame, as the accident was due to a defect in the steering gear. The Lieutenant-Governor notices with satisfaction that the number of

groundings and collisions was smaller, although the total number of arrivals and departures was larger than in the year before.

6. The depth of the Gasper Channel has increased by one foot, but the entrance into Saugor Roads is still very narrow, and a bar is likely to form unless the sands clear away. The pilots have asked that a light-ship may be stationed there all the year round. The Commissioners for making Improvements in the Port of Calcutta will be asked for a report on this point.

7. The S. S. *Undaunted* performed 18 trips to the Sandheads and the Orissa and Chittagong Ports. She proceeded also four times to the assistance of vessels which grounded in different parts of the river. The pilot brigs *Coleroon* and *Sarsuti* are in fair condition. The *Cassandra* and the *Undaunted* were put out of commission as unfit for further service, and were subsequently sold. The new pilot brig *Fame*, which is under construction in the Government Dockyard at Bombay, is expected to be at the pilot station early next year, and a new steamer, the *Guide*, is now being built to take the lace of the *Undaunted*.

8. One hundred and twenty-four candidates were examined for certificates of various grades, of which 68 passed and the rest failed. Of the successful candidates, 12 obtained Colonial Certificates of Competency as Masters, 18 as First Mates, 10 as Second Mates, and 1 as First Class, and 2 as Second Class Engineers. The Local Certificates consisted of 3 Master's, 1 First Mate's, 2 Second Mate's, and 19 Engine Driver's. Two candidates obtained licenses as Steam-tug Pilots, and eight Certificates of Competency were granted under the Inland Steam Vessels Act [Act VI of 1884]. Twenty-six new permits were issued to native coasters of between 100 and 200 tons burthen, and ten were renewed. Two vessels were registered under the Merchant Shipping Act of 1854, and the registry of three was cancelled. Seventy-one A and 361 B certificates were issued under the provisions of the Native Passenger Ships Act [Act X of 1887].

ORDER.—Ordered that copies of the Report and of the Resolution be forwarded to the Government of India, in the Department of Finance and Commerce, and to the Military (Marine) Department, the Port Officer of Calcutta, the Bengal Chamber of Commerce, the Commissioners for making Improvements in the Port of Calcutta, and the Director of the Indian Marine, Bombay, for information.

QUARTERLY INSPECTION OF THE KIDDERPORE DOCK WORKS.

Dated Calcutta, the 29th November 1888.

From—MESSRS. H. CLÖKE and W. CONNAN,
To—The Secretary to the Government of Bengal, Public Works Department.

WE have the honour to report that in accordance with the instructions contained in the Government of Bengal's letter No. 1892M., dated 5th instant, we made the fifth quarterly inspection of the works at the Kidderpore Docks as shown in the progress report submitted by the Superintending Engineer of the Docks on the 20th idem.

2. The index plan with tabular statement showing work done during the quarter under report, and the total quantity of work executed from the commencement of the Docks, which have been prepared by the Superintending Engineer in charge of the works, are with Government.

3. The progress of the works was considerably retarded by the heavy rain which fell during the latter end of August and at the beginning of the month of September.

PERMANENT WORKS.

Sixty feet Lock.—About two lacs of cubic feet of masonry were done in the southern and middle sections during the quarter, bringing these portions nearly up to their full height. Half a lac of cubic feet of earth was removed, and preparations were made for starting the excavations for the remaining portions of the lock.

EIGHTY FEET ENTRANCE.

The excavation of the open cutting was started, and during the quarter about 8⅓ lacs of cubic feet of earth were taken out. On our inspection the timbering for the foundation trenches was well in hand.

TIDAL BASIN.

The portions of the quay walls on which work had before been in progress were brought up to their full height, and on these 166,718 cubic feet of masonry were built. About 5¾ lacs of cubic feet of earthwork were also excavated.

Graving Dock.—The excavation for this part of the work was started, and eight lacs of cubic feet of earth were removed.

The timbering of the foundation trenches at the east end was begun.

Double Entrance.—The excavation of the open cutting which was started at the end of last quarter was completed, and nearly 21 lacs of cubic feet of spoil were taken away. The timbering of the trenches for laying the foundations was well in hand on our inspection.

Dock No. 1.—Two hundred and twelve lineal feet of quay wall were founded, and the masonry of the portions previously in hand was proceeded with, and 356,273 cubic feet of masonry were built, and 1,121,861 cubic feet of earth were removed.

Boat Canal.—The excavation of the earth of this work was proceeded with and nearly 5 lacs of cubic feet of spoil were excavated.

The masonry of overbridges and of lock was about to be started.

Expenditure.—The total expenditure up to the end of the quarter was reported to be Rs. 1,08,47,709, of which Rs. 84,32,350 were spent on account of works, and Rs. 24,15,359 for land.

SANITARY.

The health of the workpeople was very satisfactory. The average number employed was 9,151, among whom there was a death-rate of only 12·1 per thousand per annum.

GENERAL REMARKS.

We are of opinion that, taking into consideration the season of the year covered by this report, fair progress has been made with the works, and that, so far as we have been able to judge from our inspection, the character of the work is satisfactory.

N. 181, NE. 94, E. 49, SE. 20, S. 18, SW. 12, W. 18, NW. 30, Calm 298.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 8 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 1·6° lower; and finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF NOVEMBER 1888.

THE normal features of the meteorology of Bengal during November are very simple. Northerly winds blow over the whole of Bengal, and these usually extend as a north-easterly wind current over the north and centre of the Bay. These northerly winds are dry, and usually give in Bengal almost cloudless skies; temperature also diminishes steadily during the month, the diminution being strongly marked in the night temperatures, and humidity is low. As a rule, little or no rain falls unless it is brought up by one or other of two kinds of disturbances, which almost reverse the normal weather conditions. The first class of disturbances consist of barometric depressions or cyclonic storms which are formed in the south of the Bay in front of the retreating south-west monsoon. When they form, as they do occasionally, they usually advance towards the Madras coast, and expend their main force over the south of the Peninsula, but they also generally modify the weather over the whole of the Bay; and if the disturbance is a large one, humid winds will again be forced over Bengal, when skies will cloud over and temperature and humidity rapidly increase, and rain may fall, particularly over the southern parts of the province. The second class of disturbances consist of land-formed barometric depressions, which originate over Upper India and drift sometimes over Bengal, giving clouded skies, increased humidity and temperature, and sometimes light rain. These land-formed disturbances seldom occur in November; and if they do occur, they are generally of little importance.

Except therefore for rainfall brought up by the occurrence of storms in the Bay, as a rule, the province is almost rainless in November. Its occurrence and distribution are therefore very capricious, and the normal rainfall of November in Bengal is extremely small. Orissa usually receives a fall of about an inch and a third, and East Bengal one of nearly an inch; but in the other districts the fall is only from about a tenth up to a third of an inch.

Meteorology of the month.—As described in the meteorological report for October, at the end of that month a very severe cyclonic storm had generated in the south of the Bay of Bengal, and on the night of the 31st it passed almost over Madras. It then crossed the peninsula in a westerly direction and passed into the Arabian sea, and continued its advance in a north-westerly direction for several days. This storm had a life history from October 29th to November 6th, and it broke up apparently along the Kattiawar coast on the latter date. Following in the track of the storm a heavy wave of rainfall bearing winds set in along the Madras Coast, and these disturbed conditions drifted gradually along the coast in a northerly direction. Rainfall set in over the south of Orissa from about the 31st of October, and it afterwards spread over the whole of this division. The wave of moisture-laden winds also spread over the greater part of the province, but up till the 12th practically no rain had fallen in any district except Orissa, and at this period it also almost appeared as if the moist winds would gradually retreat from Bengal or disperse without giving rise to any rainfall of importance. Up till the 12th moist southerly and south-easterly winds were still reported at the western and south-western stations in the province, though they were gradually becoming more feeble and irregular in character. Apparently at this time also there was a rather strong northerly wind current setting in from Northern India, and this commenced to interact with and drive back the more or less moist winds. As the result of this interaction, pressure began to rise rapidly, and rainfall also commenced on the 12th in Chutia Nagpur, and on about the 13th in the western and south-western districts, and it then gradually extended to East, and North Bengal on the 14th and 15th. Rainfall thus became almost general in all districts except Behar, though the amounts received were very variable, and in some cases extremely heavy falls were reported, though at the majority of stations the falls were light. Even in Behar a few showers were received in the Purneah, Shahabad and Gya districts, and moderate to heavy rain in the Sonthal Pergunnahs, but the remaining districts in this division were almost absolutely rainless. The strong northerly current having thus driven back the variable but moist winds, the previously disturbed conditions were rapidly replaced by fine settled weather of north-east monsoon character, when skies quickly cleared, humidity and temperature rapidly decreased, and rainfall entirely ceased.

Ordinary north-east monsoon conditions then continued in Bengal up till about the 25th of the month, though from the 17th to the 22nd conditions in the east of the Bay near the Andaman Islands were very unsettled, and at one time it appeared almost as if another rather fierce cyclonic storm would be generated. From about the 24th, however, pressure commenced to fall in North-Western India, and on the 25th the changes showed that pressure was in an unsettled state, and a distinct barometric disturbance or depression existed near Agra and between this station and Delhi. At the same time also slight disturbances set in along the line of the hills. On the 26th the slight depression had travelled southwards and was near Saugor, and it was giving unsettled weather and rain to parts of the North-West Provinces and South-East Punjab. Weather was also on this day very unsettled in the hills, where hail and rain storms were reported. On the 27th and 28th the depression gradually filled up or became more diffused, and on the latter date a new depression appeared over parts of the hill districts. The disturbed conditions which had accompanied the depression in the Central Provinces, or which had been brought about by the stormy weather in the hills, appear to have gradually extended on about the 28th to parts of South Behar, and on the 29th to almost the whole of Behar and parts of North Bengal, and the disturbance was sufficiently developed to give moderate general rain to the greater part of this area On the 30th also a few light showers were received at some stations in the west of the province, but

on the whole the rainfall on this day was unimportant, and it was clear that at the close of the month the disturbed conditions were gradually passing away again, and that they would shortly be replaced by normal north-east monsoon conditions of a pronounced character. With the existence of these disturbed conditions over parts of the province, the sky generally clouded over considerably in Bengal, while humidity and temperature rose, but except in the divisions above named rainfall was almost absent from the remainder of the province, though a few showers were reported in Chutia Nagpur.

It will thus be seen that the meteorology of November in Bengal has been very important. Two very influential periods of disturbance with rainfall have occurred, the first brought about by the first class of actions referred to in the description of the normal meteorology of the month, *i.e.*, by the Madras Cyclone, while the second period of disturbance has been brought about by the second class of storms, *i.e*, land-formed storms, and this storm has occurred unusually early in the season, and has proved exceptionally important in the amount of rainfall brought by it to Behar, which district had been almost rainless since the 27th of September.

As the result of these disturbances, rainfall has been heavy and largely above the normal in Orissa and South-West Bengal, while it has been moderate in amount in all other districts, and in every division, except East Bengal, rainfall has been decidedly above the normal for the period.

Pressure.—The pressure variations during the month have not been very large. For the first half of the month pressure was almost normal, and at some stations slight excess pressures were recorded, and at others slight defects In the third week pressure became below the normal by amounts usually equalling about 0·03 inch to 0·04 inch, while in the last week it had become above the normal by an average amount of 0·065 inch. For the whole month, therefore, pressure had been slightly above the normal, the excess varying from about 0·01 inch to 0 03 inch, though at some of the stations in the north of the province excess pressures of about 0·04 inch were recorded.

Temperature.—The temperature variations during the month form a very good illustration of the fact that in the cold weather months when conditions became disturbed in Bengal and when skies cloud over, temperatures, and more particularly the night temperatures, increase decidedly. Thus during the existence of the disturbed conditions due to the Madras Cyclone the general mean temperature of the province was from about one to two degrees in excess of the normal. In the third week, when bright clear weather obtained, temperature was about one degree in defect, and in the last week, when conditions were again disturbed, temperature was no less than 2·3 degrees in excess of the normal For the whole month the mean temperature has been in excess by about one degree, the excess having been largest in Behar and Orissa, where it has equalled about two degrees Some decidedly low minimum temperatures were reported during November, Purneah reporting 49 8 degrees on one night. The general distribution of temperature throughout the month is clearly shown in the table below, where the weekly variations of maximum, minimum, and mean temperatures from the normal at nine typical stations in different districts in the province are given. It will be seen that the largest variations have occurred generally in the night or minimum temperatures.

Rainfall.—The periods of rainfall, with the cause and general distribution, have already been referred to, and it therefore only remains to state its amount and the relation which it bears to the normal fall. Very heavy falls were received in Orissa, the stations in which average 2·81 inches of rain. This amount is considerably more than double the normal fall for the period. In this division the heaviest falls occurred in the Pooree district, which average 5·02

inches, while the lightest falls occurred in the Balasore district, the stations in which only received a general fall of 1·83 inches. South-West Bengal received also a heavy fall of rain, averaging 1·44 inches; and as the normal fall from November is only 0·31 inch, the actual has been between four and five times the usual amount. In the South-West Bengal Division the heaviest falls occurred in the Burdwan district, which averaged 2·61 inches. In the 24-Pergunnahs, Howrah, Hooghly and Nuddea districts the falls have usually averaged from one and a half to two inches, and in West Burdwan, Beerbhoom, Moorshedabad, Jessore and Koolna the falls have been from one to one and a half inches. In Bankoorah the fall has averaged about two-thirds of an inch, and in Midnapore almost a quarter of an inch. The North Bengal Division has received a general average fall of 0·54 inch, or rather more than three times the usual fall in November, and in this division the districts of Bogra, Maldah, Dinagepore, Rungpore and Darjeeling Hills received from half to one inch, and Julpigoree, Cooch Behar and Rajshahye from a quarter to half an inch. The South Behar Division also has received a general average fall of 0·52 inch, or more than twice the normal fall, and here the falls have been fairly evenly distributed, the largest district fall being 0·69 inch in Patna and the smallest 0·37 inch in South Bhagulpore and Monghyr. In Chutia Nagpore a fall of 0·40 inch is reported, which is only slightly larger than the normal fall. Here Hazareebagh and Lohardugga districts have only received falls of about a third of an inch, while in Manbhoom and Singbhoom the falls have averaged about two-thirds of an inch. In North Behar an average fall of only 0·21 inch is recorded, but this is still more than twice the normal fall for the period. In this division the smallest falls are reported from the Durbhunga and Chumparun districts, which average only about a tenth of an inch. Finally, the only district which has received a defective fall is East Bengal, where the average rainfall is 0·37 inch, or only about one-third of the normal. In this division average falls of half to one inch have been received in the Furreedpore and Dacca districts, and falls of from one to three or four-tenths in Chittagong Hill Tracts, Backergunge, Noakholly, Comillah, and Mymensingh, while Chittagong has been practically rainless.

The following table gives in a condensed form the rainfall information for each of the seven large meteorological districts of Bengal for the present year up to the close of November. The numbers there given are the actual average rainfalls in each month in each district, expressed as a percentage of the normal fall for the period, and the last coloumn gives also the total rainfall up to the end of November, expressed as a percentage of the normal amount:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period of the last ten years. The *humidity* of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The number of rainy days and the means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past year. Similarly in the district results in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

the week ending Friday, the 7th of December 1888.

Variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater.

Cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head District observations of rainfall the normal means

The means of the district are the numerical average of the rainfall return received in the district, i.e., from total rainfall at the sub-divisional

CALCUTTA, *the 11th December* 1888.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 7TH OF DECEMBER 1888.

AT the close of the previous week conditions, which had for some days been decidedly disturbed in Bengal, were rapidly returning to the normal cold weather character. At the commencement of the present week skies quickly cleared in most districts; the rainfall, which had been general in Behar and over parts of North Bengal, rapidly decreased both in area and amount, and indeed almost ceased; temperature fell; humidity decreased, and fairly steady north-easterly monsoon winds again set in generally over the province. A few isolated showers fell on the first and second days of the week in such districts as Moorshedabad, Mymensingh, Pubna, Bogra, Maldah, Dinagepur, and Sonthal Pergunnahs; but the amounts were generally small and unimportant. When, however, these had ceased, conditions became quite settled over the whole province, and remained so till the close of the week; skies being lightly clouded or at some stations cloudless, and temperature and humidity being low.

Pressure.—The changes of pressure during the week have been unimportant. There was a slight fall at the commencement of the week, followed by a rise on the 3rd and 4th; while for the greater part of the remainder of the week pressure was decreasing. The mean pressure for the week has nevertheless been 0·04 inch in excess of the normal, the excess being largest in the north of the province, where at Purneah it has equalled 0·051 inch, and at Durbhunga h 0·062 inch.

Temperature—Has during the present week fallen very considerably, particularly on the 2nd and 3rd, when in some districts there was an average fall of at least three degrees in a single day. The mean temperature of the whole province has been 1·3° below the normal, the defect being largest in North Behar, where it has equalled 3·6°. Some decidedly low minimum temperatures have been reported during the week, the lowest at any of the plains stations being 41·9° at Motihari on the 7th.

The general range of temperature during the week is shown in the table below, where the average maximum, minimum and mean temperatures at nine typical stations in different districts of the province are given, compared with the normal values for the same period. It will be seen that the defects have been considerable both in the day and in the night temperatures:—

Rainfall—Has been almost absent for the whole week, and the few showers which have been reported have been received principally in the Sonthal Pergunnahs and Moorshedabad districts; but in no district have the falls been important enough to be detailed.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 7th of December 1888:—

MEMORANDUM.

THE annexed table presents the mortuary statistics of the districts in Bengal (containing a population of 66,055,695) for the month of September 1888. The results to be gathered from it, contrasted with those for the preceding month and for the corresponding month of last year, are as follows:—

1. Deaths registered—

	During the months of—		
	September 1888.	August 1888.	September 1887.
Number	122,250	109,203	112,626
Ratio per *mille*	22·20	19·80	20·40

The above figures show an improvement in death registration during September 1888 as compared with August 1888 and September 1887.

2. The highest casualty-rates were returned from the following districts:—

Districts.	Ratio per *mille.*	*Districts.*	Ratio per *mille.*
Gya	53·52	Patna	32·64
Hazaribagh	43·80	Darjiling	30·84
Shahabad	39·60	Chumparun	27·60
Monghyr	34·32	Singbhum	25·80
Lohardugga	33·36	Dinajpur	25·08

3. In comparison with the results of the corresponding month of last year, there was a fractional increase of mortality from all the diseases excepting bowel-complaints, *vide* figures quoted below:—

	Ratio per *mille* during—	
	mber 1888.	September 1887.
Cholera	1·20	·96
Small-pox	·02	·01
Fever	15·96	15·00
Bowel-complaints	·72	·84
Injury	·60	·48
Other causes	3·36	2·76

4. Of the above diseases, cholera, fever and the maladies coming under the head of "Other causes" exhibit high rates of mortality. As regards "Other causes," however, the death-rate was high only in the district of Puri, where it amounted to 10·44 per 1,000 of population. The following table shows the districts in which the death-rates from cholera and fever were highest:—

Cholera.	Ratio per *mille.*	*Fever.*	Ratio per *mille.*
Chumparun	6·96	Gya	30·60
Gya	4·80	Hazaribagh	33·24
Cuttack	4·20	Shahabad	28·92
Hazaribagh	4·20	Monghyr	24·08
Singbhum	3·60	Dinajpur	23·52
Shahabad	3·24	Lohardugga	21·00
Mozufferpore	3·12	Murshedabad	20·40
Sarun	2·76	Julpaiguri	20·28
Patna	2·52		
Lohardugga	2·40		
Puri	2·04		

5. In relation to *Sex*, *Class* and *Age*, the death-rates during the month under notice stood as noted below:—

According to Sex	Ratio per *mille.*	*According to Class.*	Ratio per *mille.*	*According to Age.*	Ratio per *mille.*

General remarks on the fluctuation of principal staples carried over the East Indian Railway during five weeks ended 27th October 1888.

INCREASES.

Coal and coke.—There was a decrease in the upwards, and an increase in the downwards, despatches of coal and coke traffic; the former was nominal, and the latter may be attributed to the opening of the Jubilee Bridge, and the increased facilities for delivering coal and coke in Calcutta and Eastern Bengal generally, and also to the demand which has recently sprung up for Bengal coal for export to coaling stations on the Indian and Burmah coasts.

Jute, raw.—This was in the despatches from Eastern Bengal *viâ* the Jubilee Bridge, and also from the Assam-Behar State Railway.

Gunny.—This increase was in a great measure due to long distance traffic from Howrah, owing to demand for gunnies both for wheat and seeds.

Wheat. Due to demand for shipment; the export traffic is reported to have been affected by the high charges current for sea freight.

Rice (husked and unhusked).—The increases were almost entirely from stations on the Howrah district and on the Loop line Sahebgunge and below, and were due to demand at up-country stations.

Government stores.—This was chiefly in ordnance stores from Howrah to Peshawar and Quetta.

Minerals.—Chiefly in lime despatched for the construction of the Kidderpore Docks.

Oil.—This increase was again in kerosine oil from Howrah.

Seeds.—There were increases in linseed and mustard and rape seeds, and a slight decrease in other seeds; the increases were due to better demand for shipment, and the decreases were in other oilseeds, owing to dull markets and to a scarcity of jeera seeds.

Potatoes.—This increase was entirely due to the new traffic in hill potatoes *viâ* Moghul Sarai.

Salt.—The increase was chiefly in the despatches from Howrah, due to a fair demand from the up-country markets.

DECREASES.

Cotton.—The decrease was principally in despatches from Agra, and was due to the new season's crop not having come into the market.

Piece-goods, European.—The decrease was in short distance traffic from Howrah, and may be attributable to discouraging prospects of the food-grain crops in Bengal above Sahebgunge.

Indigo.—Due to the indigo crop being later and poorer than usual, owing to unseasonable rains.

Turmeric.—Due to limited demand.

Fruits, other kinds.—This was chiefly in the despatches of betel-nuts from Howrah and fruits from *viâ* Ghaziabad; the former owing to want of demand from up-country marts, and the latter partly to the unsettled state of the Cabul trade, owing to disturbances in Afghanistan.

Other rain and spring crops.—There were heavy decreases in the despatches from stations on the upper portion of the Loop line and on the Dinapore district, as in all cases supplies were no more than sufficient for local consumption, while some stations had even to import food supplies.

Brass and copper.—Due to high prices as in previous months.

Railway material, Foreign.—The falling off was entirely in a special traffic from Bombay which was carried last year from *viâ* Jubbulpore for the Indian Midland Railway.

MADRAS COAST.

Position of a Wreckage between Madras and Vizagapatam—dangerous to Navigation.

THE Commander of the British India Steam Navigation Company's screw steamer *Chupra* reports that, whilst on his way from Madras to Vizagapatam at about 8-45 P M. of the 6th December, 1888, the propeller of the vessel struck some floating substance which checked the engines for a second or two; but did not bring them up; nor did it damage the blades. From the sound it made, it appeared to have been a large piece of wreckage or spar.

Position:—Latitude 16° 51′N.
Longitude 82° 42′E.

Hope Island Light-house bearing S. 84½°E. (true), distance about 22 miles.

As this piece of wreckage is likely to be dangerous to navigation, Mariners are warned.

Leading Lights—Semaphore Anchorage.

IN continuation of Notice to Mariners, No. 63, dated the 31st October 1888, further notice has now been given by the Secretary, Marine Board, Port Adelaide (No. 13 of 1888), that on and after the 1st December 1888 two Red Lights will be exhibited ashore, one from the Time-ball Tower, and the other from the Flagstaff at the shore end of Semaphore Jetty.

These Lights in line, bearing S. E. ½ S., lead through the deepest water in the Semaphore Anchorage, and up to the Ocean Steamers' Mooring Buoy.

Directions.

By Night.—Vessels approaching the Anchorage should not bring the Port Adelaide Light to the North of N.-E. until the above Lights are in line, then steer in on that line with the lead going until the requisite water is found, or the Mooring Buoy is picked up. When the red light, east of the Light-house, is just closing with the Bright Light on No. 11 Beacon, the vessel will be close to the Mooring Buoy.

The leading Lights will not show South of the Bell Buoy on the Wonga Shoal, so that vessels of suitable draught, which do not intend to use the Mooring Buoy, may steer in for any part of the anchorage as soon as the two Red Lights are visible.

By Day.—Keep the Light-house on the same bearing until the Time-ball Tower and the Water Tower are in line, then proceed as above.

The following are the conditions of sale :—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday, if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale, at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bonâ fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1887-88, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

By order of the Board of Revenue, L. P.,

K. G. GUPTA, *Offg. Secretary.*

FORT WILLIAM, *the 26th November* 1888.

No. 1513B.

MILITARY SECRETARY'S OFFICE.

NOTIFICATION.

Calcutta, the 10th December 1888.

THEIR EXCELLENCIES THE VICEROY AND MARCHIONESS OF LANSDOWNE will hold a Drawing Room at Government House, Calcutta, on Thursday, the 20th December 1888, at 9-30 P. M.

Ladies purposing to attend the Drawing Room are requested to send their cards and addresses to the Aide-de-Camp-in-Waiting not later than Saturday, the 15th December 1888, after which "no cards" will be received, and to bring with them to the Drawing Room two cards, with their names legibly written on them—one to be given on entering Government House, and the other to the Aide-de-Camp-in-Waiting at the time of presentation.

Ladies who have not already been presented at the Court of St. James or at Government House are requested to send their cards, with their addresses and the name of the lady by whom they are to be presented, to the Aide-de-Camp-in-Waiting as soon as possible.

Ladies who present others should themselves attend the Drawing Room.

Ladies attending the Drawing Room will be expected to appear in *full dress* but without trains.

The carriages of those who have the Private Entrée will enter by the South-West Gate and set down at the South Entrance of Government House.

All other carriages will enter by the North-East Gate, set down under the Grand Staire, and pass out by the North-West Gate.

By Command,

PUBLIC WORKS DEPARTMENT—BENGAL.

ROAD CESS.

NOTIFICATION No. 408.

Calcutta the 11th December 1888.

THE subjoined annual accounts and reports of the District Road Committees of the districts of Hazaribagh, Lohardugga, Manbhoom and Singbhoom for the cess year 1887-88, from 1st April 1887 to 31st March 1888, together with the remarks thereon of the Commissioner of Chota Nagpore, are published for general information.

W. B. BESTIC,

Under-Secy. to the Govt. of Bengal.

No. 94DR, dated Hazaribagh, the 12th July 1888.

From—COLONEL C. H. GARBETT, Chairman, District Road Committee, Hazaribagh,
To—The Commissioner of the Chota Nagpore Division.

I HAVE the honor to submit herewith a detailed account of receipts and expenditure of the District Road Fund for the year ending 31st March 1888, together with the following report on the administration of the fund for the same period

2. During the year under report the District Committee, consisting of 24 members, held four meetings for the transaction of business, a summary of which is given below. A quorum was obtained at all the meetings. * * * *

(1). To consider the appointment of a Vice-Chairman in place of late Baboo Girindra Nath Mitter.

(2). To re-construct the Standing Sub-Committee for the monthly audit of accounts.

(3). To pass the half-yearly accounts and report for the half-year ending 31st March 1887.

(4). To revise the budget estimates of receipts and expenditure in consequence of the change in the cess year under Government circular No. 1538, dated 29th March 1887, and also to prepare the estimates of receipts and expenditure for the current financial year, and sundry other matters.

3. The accounts were as usual audited monthly by a Standing Sub-Committee appointed under section 174 of the Road Cess Act.

4. *Branch Committee.*—There is only one Branch Road Committee at Giridi, which held three meetings during the year, and in which the average attendance of members was five.

5. The year commenced with an arrear balance of Rs. 2,700, and as the demand for the year was Rs. 46,047, less the sum of Rs. 1,027 paid in advance in the previous year, the net demand realizable was Rs. 46,910. Of this sum Rs. 36,245 was collected during the year, leaving a balance of Rs. 10,665 outstanding at its close. In addition to the above, a sum of Rs. 500 was collected as advance collections on account of next year. The percentage of collection on current demand was 79·7. The percentage being below the prescribed standard was mainly due to the Ramgurh Estate, the largest estate in the district, defaulting to pay its last instalment of cesses, amounting to Rs. 17,614-10-5 on the 28th March 1888. This balance fell due owing to confusion arising through a change of Managers in the estate about the close of the year. The balance has been fully realized since.

Original Works.

6. The funds at the disposal of the Road Committee being barely sufficient to keep up all the existing roads, which aggregate upwards of nine hundred miles (including village roads), it was thought advisable not to take up any new work during the year under review. The sum of Rs. 2,384-3-8 shown as expended in original works was paid for works done in the previous year, which could not be paid before for want of sufficient funds.

Repairs.

7. *District Roads.*—Four metalled roads, aggregating about 53 miles in length, have been maintained in good condition. Seventeen fair-weather roads, about 300 miles in all, have been kept up. They are generally in fair order. The gradients of some admit of improvement, and the approaches down to beds of unbridged rivers and nullahs can also be made easier. For want of funds, the above improvements have to be taken up gradually.

8. *Village Roads.*—Thirty-six village roads, to the length of about 166 miles, have been repaired, and the approaches down to beds of rivers and nullahs, too numerous in this hilly country to admit of being bridged, have been sloped and made practicable for wheeled traffic.

9. No new trees were planted during the year under report, the number of trees already under protection (14,000) being too large to be maintained with efficiency with such funds as the Committee could spare.

10. *Nursery Garden.*—The Road Cess Office compound has been utilized as a nursery garden. The nursery contains 815 date trees, 31 jamun, 56 neem, 6 peepur, 188 mango, 5 benian, 32 karonje.

11. *Staging Bungalows.*—There is only one staging bungalow under the Committee, situated at Ramgurh on the Ramgurh and Gola road. It yielded an income of Rs. 129 during the year under review, and its maintenance cost Rs. 178-4-0.

12. A sum of Rs. 5,500 was placed at the disposal of the Giridi Branch Committee, during the year. Of this sum Rs. 2,338-13-6 was spent in repairing 11 village roads, and Rs. 450-3-11 in paying the cost of establishment under the Branch Committee, leaving a balance of Rs. 2,789-1-5 unexpended at the end of the year. The Sub-Divisional Officer of Giridi reports that in consequence of the Government order regarding the change in the cess year being received late during the year, a revision of the estimates was rendered necessary and the works could not be commenced earlier during the year, moreover, difficulties were experienced in finding contractors willing to undertake the works. Thus most of the road works, though commenced within the year, were neither completed nor paid for before the close of the year.

H. C. MITTER,
Vice-Chairman.

No. 16D.R., dated Ranchi, the 14th April 1888.

From—E. G. LILLINGSTON, Esq., Deputy Commissioner, and Chairman of Road Cess Committee, Lohardugga,

To—The Commissioner of Chota Nagpore.

I HAVE the honour to submit herewith the annual accounts and report on the working of the Road Cess Act IX (B.C.) of 1880 for the cess year ending 31st March 1888.

* * * * * * *

3. * * * The attendance of both official and non-official members of the District Committee during 1887-88 was more satisfactory than in the previous years, for out of five official and nine non-official only one official and two non-official members did not attend six consecutive meetings. The name of one non-official member had to be struck off the list under section 115, Act IX (B.C) of 1880, and the other has resigned, and their places have been filled up. Regarding Palamow Branch Road Cess Committee * * * the attendance of the non-official members was unsatisfactory.

4. A summary of the business transacted at the meetings of the District Road Cess Committee is given below :—

(*a*). Passing the budget estimates.
(*b*). Fixing the rate of road cess to be levied during the year.
(*c*). Passing the half-yearly accounts for 1886-87.
(*d*). Passing the estimates submitted by the District Engineer for the repairs of different roads during 1887-88.
(*e*). Disposing of other miscellaneous business.

5. G. W. Place, Esq., C S., Officiating Joint-Magistrate, held the office of Vice-Chairman through the year.

6. The demand on account of cesses on lands and mines during the year, including arrears of last year, amounted to Rs. 52,105. Of this Rs. 1,968 was collected as advance during the previous year, and Rs. 48,127 has been collected within the year under report, thus leaving a balance outstanding on the 31st March 1888, Rs. 2,010. In addition to the above a sum of Rs. 610 was collected in advance on account of the ensuing year 1888-89.

7. The cess was levied at the maximum rate ; there was no difficulty in collecting it at head-quarters. In the Palamow sub-division also the payments appear now to be more punctually made than before.

8. The accounts of the year were duly examined and audited by a Sub-Committee consisting of the Vice-Chairman and two other English-knowing members.

9. *Original Works.*—The total provision made in the budget estimate under this head could not be expended owing to the revised project of the Ranchi and Lohardugga road bridging (which was left incomplete by the late District Engineer and was completed by the present District Engineer) not being sanctioned by Government within the year. But a sum of Rs. 2,642-9-11 was paid for collecting materials. There is every prospect of the bridges being completed during the year 1888-89.

(I).—*Ranchi-Chandil Road.*—The survey of this road, as far as it lies in this district, has been completed.

(II).—*Boundary of Head-quarter Sub-division to Daltongunge.*—Survey was made plans and estimates prepared for the Charowdi Ghât Diversion, for which an allotment was made in the Budget Estimate. But as as this work is not considered a very urgent one, and there are more important works to be done on this road, it has been decided to postpone this work.

(III).—Surveys for the Kuru and Lateyhar Road Diversion and the preparation of project for the Ranchi and Lohardugga road have been finished.

10. *Plantation.*—The work of tree-planting has been extended over five miles of roads, and during the year 900 new trees, some supplied by the Superintendent of the Botanical Garden, Calcutta, and some taken from nurseries, have been planted on the road-sides. The total length now planted out is about 103 miles.

The trees planted are thriving.

11. *Repairs.—Ranchi and Lohardugga Road.*—This very important road, over which very heavy traffic passes, has been kept in fair order. About nine and a half miles have been gravelled in this year, and this will continue as funds become available.

(*a.*)—*Lohardugga-Chatra Road.*—This is also a very important road and has considerable traffic. This year some 18 miles of the road have been thoroughly renewed and the entire length maintained in fair order.

(*b.*)—*The road from Kuroo to the Head-quarter Sub-division boundary towards Daltongunge.*—This road is maintained in good order, and one large temporary bridge of sâl-wood platform and dry rubble abutment has been constructed. The road requires re-alignment in order to avoid the Moorgoo-Jhoriah ghât and a number of unbridged nullahs.

(*c.*)—*Ranchi-Bundgaon Road.*—This is the direct road to Chybassa, the head-quarters of the Singbhoom district, *vid* Chuckerdhurpore. Besides reconstruction of 12 miles of the road, ordinary repairs throughout have been executed.

(*d.*)—*Ranchi-Chandil road.*—This is the nearest road from Ranchi to the Chandil station of the Bengal-Nagpore Railway. There is correspondence going on regarding this road, and it remains to be decided whether this road or the Ranchi-Bundgaon road will be

taken up as a provincial one by the Public Works Department. Ordinary repairs have been executed and some 30 lineal feet of temporary bridges have been constructed.

(*e*).—*Ranchi-Palkote Road.*—Besides ordinary repairs, about 14 miles of roads have been renewed and ten small culverts of dry-rubble and flagstone and three large temporary bridges constructed, and 57 stone mile-posts put up. The road is now opened for cart traffic up to Bussia, and next year it is proposed to extend it up to Palkote.

(*f*.)—*Khunti and Kamdera Road.*—Besides the reconstruction of about 10 miles of the road and construction of dry rubble and timber temporary bridges, the entire length of the road was maintained in good order by patch repairs. Thirty stone mile-posts have been put up.

(*g*.)—*Ranchi-Palma, Ranchi-Gola, Ranchi-Pithoria, and Bundu-Jhalda.*—Ordinary repairs have been undertaken on these roads; they were kept in good order.

(*h*.)—*Lohardugga-Sumbulpore Road.*—Three miles of this road have been constructed where only a mere track existed before; 150 running feet of temporary bridges have been reconstructed.

(*i*.)—*Palma-Lohardugga.*—Some 16 miles of road have been newly constructed over the existing foot track. Five dry-rubble and flag-stone culverts have been constructed. The road is now opened for cart traffic to Lohardugga.

12. *Petty roads.*—One mile of the Lalpore petty road has been metalled, and the others have been maintained in good order.

13. *Road from Oranga Stream to Daltongunge.*—Besides reconstruction of some seven miles of the road and repair and reconstruction of a good many jungle wood temporary bridges, the road has been maintained in good order for ordinary traffic, and about one and-a-half miles have been gravelled.

14. *Daltongunge and Maharajgunge Road.*—This is one of the most important roads in the Palamow sub-division, and has heavy cart traffic. This year the road has been properly opened for traffic up to 37th mile by thorough renewal of some 17 miles of road with construction of some temporary bridges, and the road throughout was kept in fair order.

15. *Daltongunge and Gurwa Road.*—This road has been thoroughly repaired during the year, and nine temporary culverts, have been constructed.

16. *Gurwa Untari, Gurwa-Majiwan, Majiwan-Jupla, Daltongunge-Behar, and Lesliganje-Panki.*—Most of these roads, or at least greater parts of them, are mere tracks; very little work has been done this year and only very bad portions made passable.

17. *Daltongunge Station Roads.*—The roads have been thoroughly repaired during the year under report. Four dry-rubble and flagstone culverts have been constructed.

18. *Village roads.*—In the head-quarters sub-division, some 21 miles of new roads have been constructed and 83½ miles properly maintained, and many temporary bridges constructed. In the Palamow sub-division some 20 miles of roads have been maintained.

19. *Accounts.*—The monthly accounts of the Road Fund and of the District Engineer's Office were examined by the Vice-Chairman and two other English-knowing members of the Committee who were appointed for the purpose.

20. The Local Auditor inspected this and the District Engineer's office on the 26th April 1887, and the result was satisfactory, as mentioned in my last year's report. No professional Auditor has inspected these offices since.

21. The establishment entertained under the Road Cess Act are—

(*a*). Establishment for collection of revenue.
(*b*). Committee's office establishment.
(*c*). Engineering establishment.

22. The establishment for collection of revenue at head-quarters consists of one head clerk and accountant, one assistant clerk, one mohurir and one peon. These officers also do the work connected with the Committee's office, for which there is no separate establishment. The establishment under the Sub-divisional Officer of Palamow consists of one clerk and one peon. The head clerk and accountant, Baboo Nundo Laul Chatterjee, has worked very well during the year under report and has given me entire satisfaction.

23. * * * * *

24. The District Engineer reports that the sub-overseers and clerk employed under him in the head-quarters sub-division on the whole worked fairly well. The overseer in charge of the Palma sub-division also did his duties well.

25. The roads, bridges and culverts mentioned in the budget estimate for 1888-89 (sanctioned by Government) are the works proposed to be taken in hand during the ensuing year 1888-89.

26. The works have all been executed by contract during the year under report, and the small sums advanced to the contractors have been adjusted except in a few cases.

D. C. ROSE,
Member, Road Cess Committee.

C. F. MANSON,
Vice-Chairman, Road Cess Committee.

E. G. LILLINGSTON,
Chairman, Road Cess Committee.

Annual Report of the District Road Committee of Manbhoom for the cess year 1887-88.

1. *Working of Cess Act IX (B.C.) of 1880.*—Statement A shows the demands, collections, and balances of cesses for 1887-88 as compared with the year previous. The outstanding balance of 1886-87 was Rs. 51,567, and the demand of the year under report was Rs. 89,820, against Rs. 46,708 and Rs. 91,387, respectively, for the previous years, thus :—

	Rs.
Arrears of cesses on lands for 1885-86	45,395
Ditto on mines and quarries	298
Ditto on jungles	1,015
	46,708
Demand on lands for 1886-87	80,126
Ditto on mines and quarries	9,274
Ditto on jungles	1,987
	91,387

There has been a *decrease* of Rs. 1,567 in the demand, due to the reduced assessments on some of the coal mines and quarries; also due to the remission sanctioned by the Board of Revenue.

The collection of the year was Rs. 97,431; against Rs. 87,041 of the year previous, showing an increase of Rs. 10,390.

Out of the balance of Rs. 43,956, shown in column 10 of the statement, Rs. 61 have been remitted by order of the Board of Revenue, and the net balance to be collected is Rs. 43,895, of which Rs. 24,021 represents the arrears of the kists ending 28th and 31st March 1888, the payment of which could not be enforced till after the lapse of 15 days. Deducting the amount of March kists, the balance is reduced to Rs. 19,874, of which Rs. 12,898 are due from the Pachet Rajah alone, who does not pay the cesses punctually. Certificates were issued in all cases for realization of the arrears, and steps are taken for the attachment and sale of immoveable property of zemindars and holders of lakhiraj estates.

The following mines and quarries were assessed during the year as compared with the year previous :—

	Coal mines.	Stone quarries.	Ghooting quarries.	Amount of assessment.
				Rs.
1886-87	7	14	7	7,487
1887-88	12	15	7	7,179

The road cess year has now been assimilated to the financial year under orders from Government. This necessitated the valuation of coal mines, quarries, and jungles for the six months ending 31st March 1888. This valuation was completed during the year under report, and cesses due for these six months are being realized.

The cesses were not paid regularly in all cases. The people of this district generally wait till the certificate procedure is put in force. In cases of small amounts due by owners of jungles, notice was given in quarter anna post-cards to pay up the dues within a fixed time, and the experiment proved successful in some cases. This practice was adopted to avoid the trouble and expense incident to the certificate procedure.

There were a few objections to the assessment of jungles, on the ground that the owners derived no profit from their jungles; some were overruled for want of evidence, and in others the assessment was reduced.

The operation of the Cess Act has led to the improvement of roads and communications the details of which are given further on.

2. *Working of the Committee.*—The Committee met 13 times during the year under report, and there was no meeting without a quorum. * * *

The following is a summary of work done by the Committee during the year:—

(1) Passing monthly Road Fund accounts, audited by a Standing Sub-Committee every month.

(2) Nominating certain gentlemen as members of the Sudder Committee, and proposing the appointment of the Sub-divisional Officer of Govindpore as an *ex-officio* member of the Sudder Committee; suggesting that advances be made to him by the District Committee for the purpose of expending on the sanctioned works, and requesting submission of all accounts by him to the Committee.

(3) Preparation of a revised budget estimate from 1st April 1887 to 31st March 1888 in consequence of a change of road cess year, and submitting the same to the Commissioner for sanction.

(4) Discussion over the Chairman's proposal, regarding the present importance of the Burrabazar road and its increased future importance as a railway feeder from Midnapore, and approval of the same.

(5) Passing accounts and report for the half-year ending 31st March 1887.

(6) Passing of the budget estimates of receipts and expenditure for the cess year 1888-89

3. *Branch Committees.*—None in district. Maintenance of village and other roads in the Govindpore sub-division is under the management of the Sub-divisional Officer, who draws cheques against allotments made in the budget annually; the cheques, &c., being signed and countersigned by the Chairman and Vice-Chairman of the Sudder sub-division.

* * * * * * * *

5. *Works done during the year.*—Abstract of all works done during the year and the respective cost is shown in Appendix B.

(*a*). *Sudder sub-division.*—The provision under head "*Original works*" consisted of—(1) a 6-feet culvert in the Roghunathpore and Ranigunge road; (2) finishing the new approach of the Subornorekha; (3) surveying and preparing projects for the Railway feeders. (4) A sum of Rs. 3,000 was provided for construction of the Jubilee building in Purulia, in a portion of which the District Road Committee's office will be accommodated; the building is now under construction.

Repair works—In the Sudder sub-division consisted of the following:—

The two roads from Purulia towards Chybassa and Bankura have been repaired and improved with gravel. Screened gravel and quartz stone metal have also been collected for improving some of the worst portions of these two roads. The metal and gravel collected will be spread and consolidated during the ensuing rainy season. The road from Roghunathpore towards Bankura was thoroughly improved by spreading a considerable quantity of gravel, besides its annual maintenance. Some temporary stone culverts have been constructed and earthwork done on the Hura-Manbazar section of the Roghunathpore-Manbazar road, and the road is now fit for cart traffic as far as Puncha. The Ledhoorka-Gourandi road (an old famine road) was taken up for repairs during the year. A good deal of earthwork has been done, and some decent temporary stone culverts and causeways constructed, making the road fit for cart traffic between Ledhoorka and Kashipore, a distance of ten miles. The Burrabazar and Koilapal road was also much improved this year by constructing some rough stone culverts and causeways, and making it quite fit for cart traffic as far as Chota Talpat within six miles of the border. All other roads were repaired and maintained generally in good condition.

(*b*). *Village roads.*—These were kept up in a decent condition. The village road from Burrabazar towards Manbazar has progressed considerably during the year under report; the road was started last year.

(*c*). *Cart serais.*—(Sudder sub-division). The serais at Tholin, Jeypore and Nodiarah were thoroughly improved by roofing the sheds with tiles and gravelling the compound; and general repairs were done to all other serais and their compounds.

(*d*). *Bandhs and trees.*—The two large bandhs at Bangoordah (the embankment of which forms part of the Burrabazar and Koilapal road) and Purnapani were repaired and maintained properly. The trees planted along the station roads were watered and taken care of. Some young trees were also planted.

6. *Govindpore sub-divison.*—Nothing by way of "*Original works*" done here, only repairs to existing roads, &c. Of these the most important is the road from Govindpore to Toondi, which was greatly improved by laying down earthwork, and constructing some cheap stone culverts. As far as funds permitted, the approaches to unbridged nullahs were also improved. The Govindpore station roads were repaired and maintained fairly well. An old famine road from Nirsha to the Burrakur river, in the direction of Jamtara, was taken up for repairs, and much improved by earthwork and construction of stone culverts. The portion of road between Nirsha and Poddardi was made fit for cart traffic.

The village roads—In the Govindpore sub-division were maintained and repaired satisfactorily. The Rajgunge-Nowagar road was improved by sloping down approaches to gaps and unbridged nullahs. Portions of the Jherrya road were also improved.

The cart serais—In this sub-division were properly repaired and maintained.

Audit Certificate.

WE hereby certify that the books and accounts specified below,* prescribed for the Road Cess Office and for the office of the District Engineer, are duly kept up, and that they have been posted for the year 1887-88, and they have been duly scrutinized by the Sub-Committee.

Also that the Treasury Officer's Abstract of the Account of the Committee for the year has been duly received and checked with the cash and pass-books, and found to agree therewith, except in respect of the amount of imprest in the hands of the Accountant, which has been duly noted in the cash-book.

That the vouchers for the payments of the year have been cancelled; that none but duly sanctioned expenditure has been incurred; and that in the case of Original Works, the register of monthly expenditure shows clearly the amount of sanctioned estimate, the grant for the year, and generally that the work of the office has been performed with a due observance of the rules prescribed by Government.

* Road Cess Office.—(1) Cash-book; (2) Cash Abstract Book; (3) Register of Monthly Receipts and Expenditure; (4) Account of Deposits; (5) account of Advances.
District Engineer's Office.—I Accounts, viz., (1) Files of Contract Certificates, (2) Files of Bills for Purchases or Purchase Lists, (3) Files of day-books, (4) Files of Establishment Bills, (5) Files of Acquittance Rolls; II Books, viz., (1) Register of Bills passed; (3) Register of Works and Repairs; (4) Register of Tools and Plant.

Explanatory Note.

THE excess of Rs. 28-11-8 under head "*Establishment and Contin encies of Office of Collection*" is not actual, but simply apparent, as it includes a sum of Rs. 128-12-3 paid for unrecoverable process fees and wages of ticca peons, &c., provided in the budget under head "*Advances.*" As a matter of fact there is a saving of nearly Rs. 100 under the above head.

No. 18R.C., dated Chyebassa, the 11th May 1888.

Memo.—By the Deputy Commissioner and Chairman, District Road Cess Committee, Singbhoom.

COPY of the following forwarded to the Commissioner of Chota Nagpore for information.

Annual Report of Road Cess operations during financial cess year, 1887-88.

MIDNAPORE ROAD.

1. *Repairs.*—The surface of the whole length of the road was dressed and kept in a pretty drivable state during the cold and summer seasons. The earthwork in the approaches of four new culverts on the 69th-70th mile was completed. The muddy portions of the first 22 miles, making up a total length of 5½ miles (excluding what had been done in the previous years), were gravelled. Repairs to bridges and culverts were attended to chiefly by pitching stones on the floor and down-stream side, as almost every one of them had got a heavy scour. One culvert on the 69th mile was entirely rebuilt.

Original work.—One road inspection bungalow was built on the 12th mile and three culverts on the 69th mile and 70th mile.

NORSINGGUR-BAHORAGORA ROAD.

2. *Repairs.*—The surface-dressing was done all through, jungle cleared and stubbed and the ramps of ghâts and unbridged nullas were made easy. All the temporary timber bridges were repaired.

BARAKAR ROAD.

3. *Repairs.*—The whole road was properly looked after and the surface dressed and kept in a pretty drivable state during the cold and the summer seasons. The heavy portions of the first 23 miles, making up a total length of about 5 miles (excluding what had been done previously), were improved by gravelling. Petty repairs to masonry were executed to some of the bridges and culverts, and stones were pitched on the down-stream side of almost every one of them to prevent a heavy scour.

Original works.—Two road inspection bungalows were built—one at Dugni on the 20th mile, and one at Raghunathpore on the 29th mile of the road. Part of the Subornorekha ghât improvement was executed, and the work is in progress.

BANDGAON ROAD.

4. *Repairs.*—The whole length of the road was surface-dressed and kept in good order all through during the dry season. The heavy portions of the first 13 miles, up to the river Sangai, making up a total length of about 5 miles, were gravelled. One timber platform bridge on the 3rd and one on the 7th mile were entirely rebuilt. Petty repairs to bridges and culverts were executed chiefly by pitching stones to protect the foundation o the flooring and curtain walls from being left bare by heavy scour.

Original works.—One road inspection bungalow was built at Myleperi on the 26th mile of the road.

JYNTGUR ROAD.

5. *Repairs.*—Surface-dressing was done over the whole length of the road which was kept in a drivable state during the dry season. About 4 miles of the heavy portions in the first six miles of the road were gravelled. One masonry culvert on the 6th mile and one bridge of 2 × 12 feet span were entirely rebuilt.

Original works.—One road inspection bungalow was built at Jorapokhooria on the 10th mile.

KHURSOWAN ROAD.

6. *Repairs.*—Surface of the road was dressed with petty repairs to earthwork and turfing, and the ramps of ghâts and unbridged nullas were made easy wherever necessary Muddy portions of the first five miles were gravelled. Four masonry pipe culverts were entirely rebuilt.

Original works.—Nil.

BAMONGHATTY ROAD.

7. *Repairs.*—Petty repairs were executed as far as funds permitted.
Original works.—Nil.

VILLAGE ROADS.

8. The village road Lalgurh-Mujgaon was superficially repaired, and some others were touched here and there wherever urgently necessary as far as funds permitted.

ARBORICULTURE.

9. All the existing plants were fenced, and about 1,000 new trees were planted.

ESTABLISHMENT.

10. There was no District Engineer for about five months (April to October), the permanent incumbent having resigned, and the newly-appointed man, Baboo Nogendra Nath Chatterjee, having died of cholera within a month of his joining the appointment. Besides the District Engineer, the establishment consists of one Sub-Overseer, two road sirkars, one clerk to the District Engineer, and one clerk and accountant to Chairman.
The subordinates have discharged their duties to satisfaction.

M. N. BAGCHI.

No. 111D.R., dated Chota Nagpore, the 10th August 1888.

From—J. A. HOPKINS, Esq., Offg. Commissioner of Chota Nagpore,

To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour herewith to submit, in original, the annual reports and accounts of receipts and expenditure of the District Road Funds of the several districts of this Division for the year ending 31st March 1888.

2. The dates on which the reports and accounts were received in this office are given below :—

Hazaribagh	...	...	...	18th July 1888.
Lohardugga	...	...	...	15th April „
Manbhoom	...	...	..	28th July „
Singbhoom	...	...	...	17th May „

3. The subjoined statement exhibits the attendance of the members of the Committees during the year under report as compared with the half-year ending 31st March 1887.

Committees.	Half-year ending 31st March 1887.				Year ending 31st March 1888.

4. The total receipts of the Division for the year under report, including advances and deposits, amounted to Rs. 1,63,575-14-3. This together with the unexpended balance of the half-year ending 31st March 1887 (Rs. 1,04,055-13-11), gave a total income of Rs. 2,67,631-12-2 available for expenditure during the year. The total disbursements, including advance and deposit repayment, amounted to Rs. 1,73,997-14-5, leaving a balance in hand of Rs. 93,633-13-9 when the year closed.

5. Out of the total disbursements shewn above, Rs. 1,10,843-0-7 were spent under the head of "Repairs," and Rs. 12,167-11-4 on "Original works."

6. *Village roads.*—Village roads in the districts of this Division have been maintained so far as funds permitted.

7. Attention has been given by every District Committee to arboriculture. New trees have been planted along roadsides, and those planted in previous years have in most cases been maintained.

8. The subordinate establishments of the different departments of the Road Cess office are reported to have given satisfaction in the discharge of their respective duties.

Furreedpore Collectorate, the 23rd-24th November 1888. T. J. C. GRANT, Collector.

NOTICE is hereby given that the undermentioned plots of Nalhatty Railway land, no longer required by Government, situated in the district of Moorshedabad, will be put up to sale on the 23rd January 1889, at Shagardighi, and on the 24th idem at Bokhra, in Moorshedabad district.

The purchasers of the plots will be subject to the following conditions:—

1st.—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough it closer than three feet from its foundation.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.

3rd.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4th.—The plots will be sold revenue-free to the highest bidders.

5th.—The purchaser shall be put in possession on receipt of the orders of the Collector approving of the sales. But such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

Hooghly Collectorate, the 7th November 1888. M. GUPTA, for Collector Hooghly.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned land formerly occupied by the Old Post-Office Bungalow, situated in village Sitarampur, within the jurisdiction of Raniganj sub-division, district Burdwan, will be put up to auction sale at the Burdwan Collectorate, on Saturday, the 12th January 1889, corresponding with 29th Pous 1295 B S. The purchaser will be subject to the following conditions of sale :—

CONDITIONS OF SALE.

1. The land is to be sold as revenue-free to the highest bidder above the upset price fixed at the time of sale.
2. If the amount of purchase money does not exceed Rs. 100, then the whole amount is to be paid at once.
3. If the amount of purchase money exceeds Rs. 100 one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited by the purchaser being forfeited to Government) and the land is to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.
4. The possession of land is to be given to the purchaser after the confirmation of sale.

MIDNAPORE COLLECTORATE, the 28th November 1888. E. GRAKE, for Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Dacca, will be put up to sale at the Dacca Collectorate on the 11th January 1889, corresponding with 28th Pous 1295 B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of sale.

1*st*.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force: and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3*rd*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Number on the district roll.	Name of estate and pergunnah.	Approximate area in acres.	Government revenue assessed.	REMARKS.

Collector's Office, district Dacca, the 6th December 1888. T. INGLIS, for Offg. Collector.

NOTICE is hereby given that the right, title, and interest of Government, as specified in the conditions of sale below, in the Nispi land in village Durmoot, pergunnah Majnamoota, which forms the undermentioned estate, situate in the district of Midnapore, will be put up to sale at the Midnapore Collectorate on Saturday, the 12th January 1889, corresponding with 1st Magh 1296 A. S. The purchaser will be subject to the following conditions of sale :—

Conditions of sale.

1. The land comprised in the estate to be sold to the highest bidder above the upset price. The purchaser will be considered as the Nispi holder of the said land, and the entire right, title, and interest of Government in the land will be transferred to him, subject to the annual payment of the undermentioned Nispi rent and peshkush jumma to the proprietors of the temporarily-settled estate Majnamoota, which is now under direct management. The purchaser will have to pay no annual revenue to Government.

2. The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and the purchasers to be bound to respect the rights of the resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. Patna Collectorate, the 15th December 1888. B. G. GEIDT, Covd. Deputy Collector, for Collector.

NOTICE is hereby given that the undermentioned plot of the Nizamat Lakhraj State lands, situate in the district of 24-Pergunnahs, will be put up to sale at the Collectorate of the 24-Pergunnahs, on Saturday, the 12th January 1889.

The purchasers of the plots will be subject to the following conditions:—

I.—The plots will be sold revenue-free to the highest bidders above the upset price.

II.—The sale to be subject to existing leases, and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

III.—If the amount of the purchase-money do not exceed Rs. 100, the whole amount will be paid down at once.

IV.—If the amount of the purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government, and the estates to be again put up for sale at the risk of the defaulting purchasers after issue of advertisement as in the case of original sale.

V.—The purchasers shall be put in possession on receipt of the orders of the Collector approving of the sales, but such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

Rules framed by the selected Committee for the conduct of business of the Sudder Local Board, Furreedpore, for the time being.

CLAUSE (*a*)—*Meeting.*

RULE 1.—If the Chairman is temporarily absent from his duties, or if the office of the Chairman is temporarily vacant, the duties of the Chairman under these rules shall be performed by the Vice-Chairman.

RULE 2.—Meeting shall be either ordinary or special.

RULE 3.—An ordinary meeting of the Sudder Local Board shall be held on the second Saturday of every month at 4 P.M., in the office of the Local Board, or at such place as the Chairman may from time to time determine; provided that, if the second Saturday of any month falls on a gazetted holiday, or if for any other reasons it is deemed inconvenient, the Chairman shall fix the next open day for the ordinary meeting of the Local Board.

RULE 4.—A special meeting of the Local Board may be called at any time by the Chairman. The Chairman shall be bound to call a special meeting on a requisition signed by one-fourth of the total number of members.

RULE 5.—The following subjects shall be dealt with at special meetings, viz.—

(*a*) Election of Chairman and Vice-Chairman (sections 25 and 26).
(*b*) Removal of Chairman or Vice-Chairman (section 28).
(*c*) Casual vacancy in the office of Chairman and Vice-Chairman (section 29).
(*d*) Scale of establishment and salaries (section 33).
(*e*) Preparation of annual budget estimate (section 51 and Government rule 71, Part VIII).
(*f*) Bye-laws (section 139).

RULE 6.—All other subjects which come within the province of the Local Board may be dealt with at either ordinary or special meeting.

RULE 7.—The notice under rule 67 of the General Rules shall be given to each member with a copy of the list of business to be transacted, by transmitting the same by post or by such method as may be convenient; provided that a vernacular translation of the same shall be supplied to any member who does not understand English.

RULE 8.—Notices of motion accompanied by verbatim drafts must be sent to the Chairman in time to be included in the list of business for the next meeting. Notices received too late shall be inserted in the list of business of the next succeeding meeting.

RULE 9.—A notice book shall be kept by the clerk of the Local Board, in which all notices of motions shall be entered. All such notices shall be dated and numbered as received.

Adjourned meetings.

RULE 10.—An adjourned meeting is not competent to transact any business save that which the original meeting left unfinished.

RULE 11.—An adjourned meeting, being merely a continuation of the original meeting, does not require any fresh notice.

CONDUCT OF PROCEEDING AT MEETING, &c.

CLAUSE (*b*)—*Order of business.*

RULE 12.—At ordinary meetings the business shall be conducted in the following order:—

(*a*) The minutes of the last ordinary meeting, and of any special meeting held since, shall be read, and, if approved as correctly entered, shall be signed by the President of such meeting.
(*b*) Business postponed from the last ordinary meeting shall be considered.
(*c*) A progress report of works shall be laid before the Board.
(*d*) Letters and reports of Committees shall be read, and accounts and statements shall be considered and passed.
(*e*) Motions of which due notice has been given to be discussed.

RULE 13.—At a special meeting only the business for which the meeting was called shall be considered: provided that, with the consent of the majority of the members present, any other business may be considered.

RULE 14.—In the event of any objection being raised to the manner in which any resolution has been recorded, the President shall decide the question after reference to the original draft of the resolution, and if he finds the minute to be inaccurate, shall make the necessary correction in the minute book.

RULE 15.—Unless by permission of the majority of the meeting, all subjects shall be discussed in the order in which they appear in the notice paper.

Of motions and amendments.

RULE 16.—Every motion and amendment duly moved must be seconded, and until seconded no debate thereon can take place.

RULE 17.—Every motion and amendment, after being reduced to writing under rule 74 of the General Rules, shall be signed by the proposer and seconder before being put to the vote.

RULE 18.—Every amendment shall be so worded as to be capable of making an intelligible sentence either alone or in its proper place in an original motion, as the case may be; provided that no amendment can merely negative the original motion.

RULE 19.—The President of the meeting may, for reasons to be recorded in writing and entered in the minutes of the proceedings—

(*a*) rule that a motion or amendment is illegal or out of order, and
(*b*) make such alterations in a motion or amendment as shall in his opinion render it legal and in order;

and may in case (*a*) refuse to put the motion or amendment to the meeting, and in case (*b*) refuse to put the motion or amendment to the meeting unless and until the proposer and seconder accept and sign the alterations so made; and the decision of the President shall be final.

RULE 20.—After a motion has been moved and seconded, an amendment may be moved at any stage of the debate thereon.

RULE 21.—On the discussion being concluded, in the event of several amendments having been proposed, the President shall put the last amendment to the vote first; if it is negatived, he shall put the last preceding amendment, and lastly the first amendment; and if all the amendments are lost, the original proposition shall be put to the vote.

RULE 22.—When a motion or amendment has been put and been declared by the President to be duly carried, no further proposals for amending the motion or amendment can be entertained.

Of the right to speak.

RULE 23.—The member who first addresses the meeting shall be entitled to be heard first, and should more than one member rise to address the meeting at the same time, the order of precedence shall be determined by the President.

RULE 24.—Any member shall be at liberty to call the attention of the President to a point of order even when a member is speaking. On a point of order being raised, the member addressing the meeting shall resume his seat until the question has been decided by the President. After the decision of the President, the same point of order cannot be raised again, Except as provided by this rule, no member shall interrupt a speaker in possession of the meeting.

RULE 25.—Except as provided in the last preceding rule, no member shall speak except to move or second a motion or amendment, or to support or oppose a motion or amendment which has been duly moved and seconded.

RULE 26.—A speaker who has exhausted his right to speak on an original motion may speak on any amendment being moved, as that raises a new question.

RULE 27.—The mover of a motion or amendment shall in all cases have a right of reply, but otherwise no member shall speak more than once on the same motion or amendment, unless in explanation of some part of his original speech.

Miscellaneous.

RULE 28.—Unless not less than two-thirds of the members of the Board consent by signing a requisition, no subject once finally disposed of can be reconsidered within six months.

RULE 29.—For purpose of taking into consideration business involving many details, the meeting may resolve itself into a Committee of the whole body. When this has been determined on, the rule prohibiting any person from speaking more than once on the same question shall be deemed suspended until the meeting resumes.

RULE 30.—When a motion or amendment is put to the vote, the President shall record against it, first, the names of members voting for it, and then the names of those voting against it.

RULE 31.—Voting by proxy is prohibited; and no member may vote upon any motion or amendment unless he be present in person at the time when it is put to the vote.

RULE 32.—The minutes shall contain a brief abstract of the discussion preceding each resolution.

Of protests and dissents.

RULE 33.—Protest must be limited to a concise and definite statement of the motives which prompted the votes of members who voted in the minority on a given question.

RULE 34.—Protests must be handed to the Chairman before the conclusion of the meeting at which the resolution protested against was passed.

RULE 35.—Protests duly made shall be appended to and published with the minutes.

Adjournment.

RULE 36.—It shall be competent to any member to move the adjournment of the debate or of the meeting in short speech.

RULE 37.—When a motion for the adjournment of the meeting or of a debate is made, it shall be seconded without a speech, and put by the Chairman to the vote without debate or amendment.

RULE 38.—No motion for the adjournment of the meeting or of a debate shall be admissible which proposes an adjournment beyond the next ordinary meeting.

CLAUSE (*c*).—*Division of duties among the members of the Local Board.*

RULE 39.—The Local Board may from time to time appoint out of its members such and so many Committees either of general or special nature, and consisting of such number of persons as they think fit, for any purposes which, in the opinion of the Board, can be conveniently regulated and managed by means of such Committees; but the acts of every such Committee shall be submitted to the Board for their approval.

RULE 40.—The members of the General Committees shall hold office for one year only, but shall be eligible for reappointment.

RULE 41.—Save in the case of illness, a member of a General Committee who, without the previous permission of the Local Board, shall fail to attend six consecutive meetings of such Committee, shall thereby cease to be a member, and the Committee shall apply to the Board to appoint another member in his place.

RULE 42.—The Local Board may from time to time delegate, by written authority, to one or more of its members, the duty of inspecting any work which is being carried out under its orders, or any institution under its control and management.

Proceedings of Committees.

RULE 43.—A Committee may meet and adjourn as it thinks proper.

RULE 44.—The quorum of a Committee will be determined by the meeting appointing the same.

RULE 45.—The members of the Committee present shall choose one of their number to be the President of the meeting.

RULE 46.—Every question at a meeting shall be determined by a majority of the votes of the members present and voting on that question.

RULE 47.—In case of an equal division of votes, the President shall have a second or casting vote.

CLAUSE (*d*).—*Powers of Chairman.*

RULE 48.—The Chairman of the Local Board is empowered to enter into contracts relating to works and expenditure sanctioned by the Board in respect of sums involving values not exceeding Rs. 100.

RULE 49.—The general superintendence and control of the establishment maintained by the Local Board shall vest in, and be exercised by, the Chairman.

RULE 50.—Subject to any resolutions which the Local Board may from time to time pass, and subject to confirmation by the Board, the general powers of control over the proceedings of inferior local authorities, conferred on the Local Board by the Act, may be exercised by the Chairman.

RULE 50(*a*).—The Chairman shall have power to appoint or dismiss any officer under Local Board whose monthly salary does not exceed Rs. 20. The appointment or dismissal of officers under the Board, whose salary exceeds Rs. 20, shall also rest with the Board subject to the confirmation of the District Board.

(*b*).—The Chairman shall have power to grant leave to officers under the Board for a period not exceeding 15 days. In all other cases the powers will rest with the Local Board.

RULE 51.—The powers of the Vice-Chairman shall be such as the Chairman may, by an order in writing, delegate to him from time to time. Such powers may at any time be withdrawn or modified by an order similarly made. Provided that nothing done by the Vice-Chairman, with the express or implied consent of the Chairman, shall be invalid for want of such written order. It shall be the duty of the Vice-Chairman to supply all information to the members concerning any matter or transaction of the Board.

CLAUSE (*e*).—*General.*

The Local Board in a general meeting may from time to time frame new rules and alter or add to the existing rules.

Notice.

THE right of working the copper mines at Chunabatti, in the sub-division of Alipur, Western Dooars, will be put up to auction on 15th March 1889, in the Court of the Sub divisional Officer of Alipur. Settlement will be made with the highest bidder for five years, commencing from 1st April 1889. Chunabatti is situate two miles west of Buxa in the Western Dooars. Plenty of labour, firewood and good water is available on the spot. There is a good road, and the mines can be worked with little difficulty. It is believed that any person or company who may work the mines will obtain a good profit. Sixteen seers of copper are said to be obtainable from each bazar maund of ore. A specimen of the copper can be seen at the Office of the Secretary to the Chamber of Commerce, Calcutta. Any further information will be supplied by the undersigned.

Municipal Loan.

THE Municipal Commissioners of Bhagulpore have been authorised by the Government of India to raise in the open market a loan of Rs. 50,000, repayable in 37 half-yearly instalments, with interest at 6 per cent. per annum, in order to complete their water-supply scheme.

2. The yearly income of the Municipality is Rs. 45,837 even without a water-rate. There is no other loan outstanding, and by section 68 of the Bengal Municipal Act the Municipal Commissioners are bound to make the payments on account of this loan the first charge on the annual income.

3. Tenders for the whole or any part of the said amount of Rs. 50,000 will be received by the undersigned up to noon of 15th January 1889. Tenders must be in sums of Rs. 100 or multiples of Rs. 100. They should be enclosed in a closed cover superscribed "Tenders for six per cent. Bhagulpore Municipal Loan."

4. The rate at which each tender is made must be specified in rupees or rupees and annas.

5. Tenders will be opened publicly by the Chairman at noon on the 15th January 1889. They will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders: provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100.

6. The whole amount of each allotment will be divided into two instalments—

50 per cent. payable on or before 1st February.
50 per cent. payable on or before 1st March.

7. When any allotment certificate is fully paid up, the holder will obtain from the Municipal Office promissory notes of such value as he may desire (each note being in even hundreds) bearing interest from 1st April 1889, and he will also receive interest at 6 per cent. per annum from the date on which he may have made payment up to 31st March 1889.

Oct. 15th	32	8vo ...	1st ...	500	ditto ...	0 4 0	Jogendra Nath Bidyabhushan, M.A., Dinagepore.	Contains an account of Joseph Garibaldi's life. In an article on loyalty, the writer considers the Empress Victoria as superior to Rama and Judhisthir in her desire to do good to her people. She has voluntarily given to India a Magna-Charta in the form of the proclamation of 1858. A charter that was extorted in England by the force of arms has been voluntarily granted to India by her Empress. She is therefore to be adored as a goddess.	1910

1887. Oct. 23rd	48	8vo	rl. 1st ...	1,000	ditto ...	0 6 0	Bipin Bihari Mitra, 61, Bahir Shyam Bazar, Calcutta.	In an article on the Sepoy Mutiny, Babu Rajani Kanta Gupta condemns the policy of cruelty and slaughter adopted by Government at that time. The sepoys were he thinks certainly to blame for their inhuman cruelty, but they were illiterate men. But the policy of retribution adopted by some of the officers of a civilised Government cannot be excused.	1921
Nov. 9th	48	8vo	rl. 1st ...	500	ditto ...	0 6 0	ditto ...	In an article on the caste system, the writer attempts to prove that the theory of the origin of the human race from four original progenitors produced from the limbs of Bramha is not sufficient to account for the existence of the numerous mixed castes, some of whom represent the subjugated and brahmanised nationalities of Non-aryan India.	1922

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF THE INCOME-TAX IN BENGAL FOR THE YEAR 1887-88.

FINANCIAL DEPARTMENT—INCOME-TAX.

Calcutta, the 5th December, 1888.

RESOLUTION.

READ—

The Report from the Board of Revenue on the financial results of the Income-tax Administration for the year 1887-88.

This is the second Annual Report on the Administration of the Income-tax Act, which came into force on the 1st April 1886. The report deals with all operations undertaken under the Act up to the 30th June 1888, but under instructions issued by the Government of India in paragraph 9 (*b*) of their Resolution No. 1925, dated the 14th April 1888, the returns submitted show collections made during the financial year only. The administration of the tax came under the direct supervision of the Board after the 15th April 1887, the date on which Mr. W. H. Grimley resigned his office as Commissioner of Income-tax. The only important administrative change which was introduced during the year was the amalgamation of the posts of Income-tax Assessor and Excise Inspector in twenty of the less important districts. The arrangement is said to have on the whole worked satisfactorily.

Results of the tax.

2. The total demand for the year under all parts of the Act, as shown in the summary of financial results in paragraph 17 of the report, stood at Rs. 38,08,762, as compared with Rs. 39,36,958 last year, and the total collections, exclusive of advance payments for 1888-89 and excess collections, were Rs. 36,09,236 against Rs. 38,60,658. For the purposes of a comparison between the two years, however, the collections for the year 1886-87 made between the 1st April and the 30th June 1887, and the amount at which the East Indian Railway Company have been assessed, which has been otherwise adjusted, should be omitted from the figures for 1886-87. Eliminating all sources of difference, the receipts, charges, and net revenue of the two years are compared in the following table :—

	Receipts.	Charges.	Percentage of charge.	Net revenue.
	Rs.	Rs.		Rs.
1886-87	36,29,980	2,84,219	7·8	33,45,761
1887-88	37,35,621	1,57,485	4·2	35,78,136
Increase or decrease ...	+1,05,641	—1,26,734	—3·6	+2,32,375

Demand, collections and balances.

The tables which exhibit the demand, collections, and balances for the year show a very marked improvement in the accuracy with which the assessments have been made and revised. The percentage of final demand to original demand was 92·4 as against 82·02 in the previous year, and the percentage of collections (up to the 30th June) to final demand was 98·8 against 98·4. In Burdwan, Beerbhoom, Noakholly, Bhagulpore, Maldah, and Pooree the entire demand was collected within the financial year, and in eight other districts a similar result was attained before the 30th June. The whole of the arrear balance of Rs. 76,443 on account of the year 1886-87, with the exception of eleven rupees, was adjusted. The balance outstanding on the 31st March last on account of the year under review, together with Rs. 11 for 1886-87, amounts to Rs. 1,99,526. Of this, Rs. 1,22,030 were collected up to 30th June last, leaving a balance outstanding on that date of Rs. 77,496.

Assessments.

3. As this was the second year of the operation of the Act, it was found possible to reduce the number of assessors from 82, the number employed in 1886-87, to 50. The average length of the period during which they were employed increased from a little over nine months to eleven months, and the average number of villages visited rose from 1,060 to 1,490.

From a comparison of the statements showing the assessment work done in each district during the two years, it appears that the total number of villages visited has diminished from 87,019 to 74,512. A part of this reduction is no doubt due to the fact that the experience and local knowledge gained by the assessors has enabled them to omit a large number of small villages, and to concentrate their attention upon those which offer a more fruitful field for enquiry. The following figures, however, seem to show that in some districts, having regard to the success which attended their investigations last year, the scope of the assessors' enquiries has been unduly restricted :—

	Number of villages visited.		Number of villages found to contain assessees.	
	1886-87.	1887-88.	1886-87.	1887-88.
Bankoora ...	2,029	517	325	107
24 Pergunnahs ...	4,450	2,453	865	873
Dinagepore ...	3,956	1,595	1,353	561
Rungpore ...	3,428	1,255	2,100	164

The total number of persons finally assessed was 100,238 against 98,301 in the preceding year, the percentage of exemptions on revision being 5·2 against 8. It is reported that in a large number of these cases no objections were preferred, but exemptions were made by the Collectors on the ground that the assessees had died, left the district, or discontinued the business for which they had been assessed. The increase was evenly distributed over all the divisions except Chittagong and Orissa, in each of which there was a very slight decrease in the number of assessees.

4. The number of petitions of objection during the year was 19,975, of which 8,199, or 41 per cent., were wholly or partially successful. The corresponding percentage for the previous year was 48. In Bankoora (62·5), Burdwan (59·8), Rungpore (59·8), Manbhoom (58·7), Dacca (57·5), Patna (54·3), Darjeeling (51·8), the percentage was above 50. The result in these districts seems to indicate a lack of sufficient care in the original assessments. Upon the whole, however, the figures exhibit considerable improvement over those of last year.

Petitions of objections.

5. Leaving out of calculation the assessments on the salaries of Government servants and on Government securities, the average incidence of the tax on the whole population of the province was Re. 1 to every 20·3 persons, against 20·7 in the previous year. Excluding Calcutta, where the corresponding figure was Rs. 2 to every person, the proportion was Re. 1 to every 37 persons, against 39 in the previous year. The proportion of the number of persons assessed to the whole population was 1 to 663, against 677 in the previous year. Taking the district totals separately, the figures do not show much divergence from those of last year. The improvement is most marked in Julpigori, Purneah, Balasore, Lohardugga, Singbhoom, and Manbhoom. The ratio is lowest in Pooree (1 to 1,702) and highest in Calcutta (1 to 37).

Incidence of the tax.

6. The results of the year under review, with regard to the employment of coercive measures for the realization of the tax, compare favourably with those of the previous year. Actual sale was resorted to only in 477 cases out of a total number of 100,238 assessments, thus giving a percentage of ·4, against ·8 in 1886-87. The number of sales was comparatively large in the districts of Rungpore (96), Monghyr (63), Sarun (45), Furreedpore (42), Dinagepore (36) and Gya (32). Next to Calcutta, the number of warrants issued was greatest in Mozufferpore (452). But the number of sales in this district was only 15.

Coercive measures.

In Calcutta sales in execution of warrants of distress took place in 10 cases only. The number of warrants issued was 2,283 against 4,425, or 11 per cent. These results evince an improvement in the general administration of the tax, and show also that people are becoming more punctual in payment than they were in the first year of the operation of the Act, when its provisions were not so well known.

7. The total expenditure of the year amounted to Rs. 1,57,485, against Rs. 2,84,219 in the previous year. This decrease is due partly to the transfer to Excise of the entire salary and travelling allowances of the Assessor-Inspectors whose posts were amalgamated with those of Excise Inspectors, and partly to the large reduction of establishment which became possible on the conclusion of the first year of the working of the Act, during which the bulk of the assessments was made. The percentage of total expenditure to net collection, excluding refunds and advance payments, was 4·3 against 7·3 in the previous year. In Calcutta the corresponding figure has increased from 2·6 to 3·3, owing to the exclusion of the tax paid by the East Indian Railway Company, amounting to Rs. 2,32,069, the collection of which entailed no additional expenditure.

Expenditure.

8. The largest contribution, Rs. 5,93,769, was from class I (incomes from Rs. 500 to Rs. 750). The next highest, Rs. 4,69,495, was from class VIII (incomes from Rs. 2,500 to Rs. 5,000). The others range from Rs. 3,82,915 under class IX (Rs. 5,000 to Rs 10,000) to Rs. 75,894 under class XIII (Rs. 40,000 to Rs. 50,000). The largest contributions to the tax were from the following classes:—

Classification of incomes.

	Rs.	Percentage of total collections.
Money-lenders and changers ..	5,66,897	16·1
Government servants	3,78,045	10·7
General merchants	3,66,867	10·4
Dealers in other articles	1,83,341	5·2
Piece-goods merchants	1,50,024	4·2
Barristers, &c.	1,28,601	3·6
Managers and Assistant Managers ...	1,26,800	3·6
House proprietors	1,24,371	3·5
Clerks and Accountants	1,12,918	3·2
Grain merchants	1,12,371	3·1

This classification (as directed by the Government of India) follows the headings attached to the Bombay report, but the nomenclature is in many respects misleading, and the most important generalisation which can be drawn from the classified returns is that taxation under Part IV of the Act upon professions, commerce, trade, and property, yields about 70 per cent. of the realizations, and the tax upon salaries paid by Government gives 10·7 per cent.

Popular feeling.

9. The opinions of the local officers, which have been quoted by the Board, seem to show that the tax continues to be disliked by those who are affected by it; but the objections which are put forward confirm the opinion expressed by the Commissioner of Patna last year, that its unpopularity is due to the disinclination of the people to pay money, and has no relation to the inquisitorial nature of the proceedings which are necessary for its assessment. There are indications that, as the people become better acquainted with the scope of the tax and the method of its collection, they will become gradually reconciled to it, and recognise its equitable character. The difficulty of accurate assessment, which is inseparable from the income-tax in a country like India, must continue to be the great obstacle to its successful administration. The only way by which improvement can be effected is by the employment of continuous and careful supervision of the assessment list, and its correction by the light of all the information available.

10. The results of the year's administration show that care is taken to make the assessments as fair as possible, and sufficiently disclose that both the Board of Revenue and District Officers have exerted themselves to administer an unpopular tax with loyalty and without friction. The names of the Deputy Collectors specially reported by the Board as having done good service will be communicated to the Appointment Department.

OUTTURN OF CROPS.

THE following papers are published for general information.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,
Secy. to the Govt. of Bengal.

REVENUE DEPT.,
The 18th December 1888.

Outturn of last Bhadoi crops and estimated outturn of winter rice crop now being reaped.

OWING to insufficiency of rainfall at sowing time, and excess of rain at harvesting time, the outturn of the last *bhadoi* food crops reaped in August, September, and October was generally less than the average. The deficiency was least in the Dacca, Mymensingh and Noakhally districts, and greatest in the Patna and Bhagulpore Divisions, where the failure of the winter rice is also most marked. For the whole province it may be said that not more than ten-sixteenths of an average *bhadoi* food harvest was reaped.

The prospects of the winter rice crop, as shown in detail in the statement annexed, are generally unfavourable.

The distribution of rainfall most favourable to the winter rice crop is when premonitory showers fall in May or early in June. The rain in the end of June and in July should be heavy: then should come an interval of comparatively fair weather, in which weeding operations may be successfully prosecuted. The September rains must be heavy, shading off into fine weather with October showers. On the sufficiency of the September rains, more than of any other month, depends the character of the winter rice crop—the chief harvest in these provinces.

In the present year the distribution of rain all over the Province has been far different from that which is necessary to secure a good winter harvest. In May, out of the 46 districts of Bengal, 35 districts had a rainfall less than the average. In June in only one district was the rainfall equal to the average, and in most of the districts it was very much less. The rain in July was copious, and in many districts gave promise of a good harvest, but exceptionally heavy rainfall in August, in all districts save those of the Rajshahye Division, Chumparun and Durbhunga, greatly interfered with weeding operations. The rainfall in September was generally deficient, and instead of the heavy rains, which usually fall in October, the rainfall of that month was generally very meagre, and in the Patna, Bhagulpore and the Orissa Divisions especially it was almost nil.

The early cessation of rain caused anxiety in the Patna, Bhagulpore, and Orissa Divisions, but copious rain fell on the 3rd and 4th November in Orissa, and removed apprehension of severe scarcity in that Division. Very little rain fell in the Patna and Bhagulpore Divisions from 19th September to the end of November, the result being that serious deficiency of the winter rice crop is to be expected in the unirrigated parts of these Divisions. The prospects of the *rubbee* crop were also very bad in these two Divisions up to the end of November, but they were improved by rainfall in the first week of December, and are now, as a rule, fairly good. Should there be more rain in the present month, there is no reason why an average *rubbee* crop should not be reaped.

From the experience of the past, it would appear that a year which yields 50 per cent. of a full crop will produce food enough for the population under the stimulus to economy caused by high prices, and that in such a year, taking into account the grain stores and the probable importation, there will be no such pressure as to require special measures of relief. Great uncertainties, however, surround all estimates of failure of crops in India. It may easily happen that the particular circumstances of a district or province will render the effect of a drought more than ordinarily disastrous, while, on the other hand, complete failure of crops in a limited area, in which the cultivators can fall back on past savings, may be attended with but little

outward signs of distress. An estimated failure of even a third of the year's outturn will demand vigilance and preparedness on the part of the authorities, as relief measures may at any moment become necessary.

The annexed estimates of outturn of the winter rice crop, prepared from Collectors' reports, show that in no part of these Provinces, save in limited portions of the Patna and Bhagulpore Divisions, and of the Dinagepore and Rajshahye districts of the Rajshahye Division, is the estimated outturn put down at less than eight annas of an average crop, while in the important rice, growing districts of Dacca, Furreedpore, Tipperah, and Noakhally, an average, or almost a full average, yield is expected.

In parts of the Durbhunga, Mozufferpore, and Chumparun districts, and to a lesser extent in limited portions of Patna, Shahabad, Dinagepore, and Rajshahye, less than half an average crop is expected, and in these parts there is ground for apprehension of more or less distress among the poorer classes. The principal tracts thus affected are a zone along the Nepal frontier in Sitamarhi covering an area of about 350 square miles, a similar belt in the Madhubani sub-division with an area of about 500 square miles, a tract in the Soopool sub-division of the Bhagulpore district and thana Dhaka in the Chumparun district. The condition and prospects of the *rubbee* crops have much improved owing to rain which fell generally in all parts of Behar, save in the most affected tracts close to the Nepal frontier near the end of November. The annexed statements show the estimated outturn of the last *bhadoi* and coming rice crops, and also the rainfall for each district during the present year, as compared with the normal average rainfall.

M. FINUCANE,

Director of the Department of Land Records and Agriculture Bengal.

CALCUTTA,
The 15th December 1888.

STATEMENT I.—*Estimated outturn of winter Rice crop now being reaped.*

DISTRICT.	Sub-division.	Total area of sub-division in square miles.	Total area estimated to be under cultivation in square miles.	Estimated area under winter rice, aman or hymantic in square miles.	Estimated outturn of this year's winter rice crop expressed in annas.	Outturn of winter rice of previous year expressed in annas.	REMARKS.
Burdwan ...	Sudder ...	1,343	903	863	10 annas	12 annas ...	The deficient outturn is due to the cessation of the rains on the 15th September.

	District Total	2,809	1,909	1,313	10 annas	11½ annas ...	
Bankoora ...	Sudder ...	1,921	670	570	10 annas	9 annas ...	(1) The rains were late in commencing, and so a good deal of the seedlings first sown died off and the nurseries had to be re-sown. Good rain in July and August gave promise of a bumper crop this year, but a very scanty rainfall since the beginning of September, and its total cessation of late has reduced the estimated outturn to 10 annas in the Sudder and 8 annas in the Bishenpore sub-divisions. In the former sub-division irrigation is available to a greater extent than in the latter.
	Bishenpore ...	700	350	290	8 ,, ...	10 ,, ...	(2) The outturn last year was unfavourably affected by some deficiency of rain early in the season, and to a much greater extent by scanty rainfall in September and October.
	District Total	2,621	1,020	1,860	9 annas	9½ annas ...	
Beerbhoom ...	Sudder ...	1,108	664	597½	8 annas	18 annas ...	Deficiency of rain at the latter half of October when the plants are in ear has affected the estimated outturn.

	District Total	1,756	1,150	1,035	8 annas	16 annas ...	
Midnapore ...	Sudder ...	3,297	2,101½	1,521	11 annas	14 annas ...	The crop on 106 square miles in the Sabong thana was totally destroyed by flood. In the rest of the Sudder sub-division the crop promised to be an excellent one, but rain held off and the loss was therefore considerable.
	Contai ...	849	800	720	8 ,, ...	14 ,, ...	With the exception of Raghunathpore station, the crops were much damaged by the flood and excessive rainfall of August last.
	Ghattal ...	343	214	193	8 ,, ...	11 ,, ...	There are three thanas in this sub-division—Chandrakona, Ghattal, and Daspore. In the present year 13 annas of outturn is expected in thana Chandrakona. A portion of the crop was damaged this year at the beginning of the season on account of long drought, while in the previous year the outturn was 9 annas on account of deficient rainfall. About 6 annas of the crop in thana Ghattal has been washed away by floods. The outturn on the whole in the thana is estimated to be 10 annas. Last year the outturn was 14 annas. Nearly 2 annas portion of thana Daspore is safe from the floods this year. The remaining portion was swept away. Last year the outturn of this thana was 10 annas.
	Tumlook ...	620	403	435	4 annas in Panskura. 10 annas in Myadal and Sutahatta. 13 annas in Tumlook. 14 annas in Nandigram. Or 10 annas on an average.	20 ,, ...	The excess rainfall soon after the transplantation of the seedlings and the flood caused thereby did great damage to the aman crop.
	District Total	5,108	3,580½	2,868	9 annas	14½ annas ...	
Hooghly* ...	Sudder ...	443	279	219	13 annas	10 annas ...	The aman crop suffered at the time of ploughing and transplanting for want of sufficient rainfall and afterwards through excessive rain.
	Serampore ...	343	250	157	10 ,, ...	10 to 13 annas	(1) This year sowing was delayed by the lateness of the rains. Then when the plant was still small, came the excessive rain with storms and floods in August, which did considerable damage on low lands. (2) Last year there was deficient rainfall all through, and the crop was only saved by some late rain at the end of September.
	Jehanabad ...	433	303	131	12 ,, ...	8 annas ...	Four annas loss due to the floods, and 4 annas to want of rain in the latter part of the season.
	Howrah ...	162	85	80	8 ,, ...	15 ,, ...	The greater portion of the crop has been destroyed by the inundation.
	Ulluberiah ...	303	200	150	8 ,, ...	15 ,, ...	The excessive rainfall and the rising of the rivers Damudar and Rupnarain have damaged the crop.

24-Pergunnahs	Sudder, including Barrackpore and Suburbs.	885	502	409	.....	16 annas ...	Transplantation was retarded at first by want of rain; subsequently damage was done in parts by floods, and the early cessation of the rains has caused further injury.

† Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period of the last ten yea

The *humidity* of the atmosphere is expressed at saturation, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numb are the numerical mean of the results of the readings taken every two hours during the day at the several stations in the sub-divisional station for the period in question, during the stations in the district section are obtained by the number of stations. A rainy day is one on which at least hundredth of an inch fell

the week ending Friday, the 14th of December 1888.

* Mean of 5 days.

Variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater.

Cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head District observations of rainfall the normal means are. The means of the district are the numerical average of the rainfall return received in the district, i.e., from total rainfall at the sub-divisions

Calcutta, *the 11th December* 1888.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 14TH OF DECEMBER 1888.

THE past week has been one of typical north-east monsoon character over the whole of Bengal and Behar. Skies have been cloudless during the greater part of the period, and at the majority of stations throughout the week temperature and humidity have been low, though subject to the usual slight oscillations; pressure has also been high and the changes have been small and unimportant, while absolutely no rain has fallen.

In the south of the Bay, however, conditions have again been disturbed, and a small cyclonic storm of considerable intensity has been generated which crossed the South Madras coast on Friday evening almost over Negapatam, and which gave rise to very stormy weather at that station and over the south west of the Bay generally. The small storm apparently commenced to form in the middle of the Bay opposite the South Madras coast on about the 11th instant, and after intensifying slowly it moved in a westerly direction. On the morning of the 13th the centre of the storm was still some distance off the land, and on the 14th it had approached to probably within about 80 or 100 miles from the coast, and on the evening of the same day it passed nearly over Negapatam, though the actual centre was probably a few miles to the south of that station. The lowest pressure accompanying the storm of which records have yet been received is 29·57 inches. The storm gave strong winds along the coast from Madras southwards, and moderate to heavy rain also accompanied it The disturbance was not, however, sufficiently large and influential to affect the weather in Bengal beyond perhaps causing a slight increase in the amount of cloud, particularly in Orissa, towards the close of the week.

Pressure.—The variations of pressure during the week have been exceptionally small, and of the usual slight oscillatory character which accompany fine settled weather. For the greater part of the week the daily variations have not been larger than one or two hundredths of an inch, pressure generally falling during the first half and rising during the second half of the week. In the mean pressure for the week about half the number of stations register amounts slightly above the normal, and the remainder pressures below it. At the northern stations near the hills pressure has been generally in slight excess and elsewhere in defect. For the whole province, therefore, the average pressure has been almost absolutely normal.

Temperature—Has been low throughout the week and the average mean temperature for the province has been about three degrees below the normal, while in Chutia Nagpur and Orissa the defect exceeds four degrees.

The general range of temperature during the week is shown in the table below, where the average maximum, minimum and mean temperatures during the week at nine typical stations in different districts of the province are given, compared with the normal values for the same period. It will be seen in both the night and day temperatures the defects have been considerable in all districts, though as a general rule the defects have been larger in the night than in the day temperatures :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly in the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

≡ fog, ▲ dew.

METEOROLOGICAL OFFICE, GOVT. OF INDIA;

Calcutta, the 17th December 1888.

MEMORANDUM.

FROM the annexed table, exhibiting the vital statistics of the principal municipalities in Bengal, for the week ending 1st December 1888, it appears—

1. That the birth-rate in these municipalities amounted to 27·6 per 1,000 of population against the same ratio in the preceding week ending 24th November, and the death-rate to 30·3 per 1,000 against 34·1 per 1,000, indicating a large retrogression in the registration of deaths.

2. That births and deaths were recorded at the highest rates in the following municipalities :—

Births.	Ratio per *mille.*	*Deaths.*	Ratio per *mille.*
Burdwan	67·1	Rampore Beauleah	73·6
Rampore Beauleah	57·8	Burdwan	73·2

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age-classification.

Increase.

Tons.

Coal ... 333

This increase is due to greater demand for silk factories being worked on an extensive scale by steam power.

Cotton piece-goods—

(1) European ... 37

This is due to Junghipur piece-goods being carried this year by this way, the Murarai road being unfit for cart traffic.

Jute—

(2) Gunny bags and cloth ... 18

This is attributable to the import of empty gunny bags for export of grains.

Grains—

(2) Rice ... 349

The increase under this head is due to greater export from intermediate stations on account of high rate.

Provisions—

(2) Dried fruits and nuts ... 13

This increase is due to export of cocoanuts for Doorgapujah.

Railway plant and rolling-stock ... 14

This increase is due to more materials carried during the month.

Oilseeds—

(2) Mustard and rape ... 11

The increase under this head is due to greater demand.

(6) Others ... 15

The increase under this head is due to greater import on account of high rate.

Decrease.

Jute, raw ... 6

This decrease is mainly attributable to steamer service between Jesganj and Calcutta.

Metals—

(4) Others ... 7

This decrease is mainly attributable to steamer service between Jesganj and Calcutta.

Timber ... 10

This was imported last year for building purposes only.

EDUCATION.

The 17th September 1888.

No. 314.—The Government of India having taken into its consideration certain representations made by the Central Committee of the "Countess of Dufferin's Fund" and by the Committee of School Inspectors assembled in 1886 to revise the European School Code, is anxious to prescribe a text-book on domestic economy and sanitary science for the use of the senior classes of English and Anglo-Vernacular schools. What is required is a work which shall primarily treat of the subjects dealt with in the Sanitary Primer, entitled the "Way to Health," in a manner suitable for more advanced and senior pupils, and also discuss topics of domestic economy. The principles of elementary physiology, so far as is appropriate and necessary to elucidate the other subjects, should also be discussed. It is desirable that the book should be handy in form, and it therefore should not cover more than 150 pages of small octavo size. The Governor-General in Council considers that the best means of securing a text-book of the required character is to offer a reward for the preparation of such a work. His Excellency in Council has accordingly decided to offer a reward of Rs. 1,000 for the best text-book on the subject. Competitors should send their compositions to the Home Office, Simla, either in print or in very legible manuscript (half margin), not later than the 1st September 1889. Each work should bear a motto and have a sealed envelope attached, with the same motto outside and the name of the author within.

The successful manuscript will become the property of the Government. Unsuccessful manuscripts will be returned, if the author's address be communicated in the attached sealed envelope.

The Government of India reserves to itself the right of withholding the reward of granting only a portion of it should no work attain the required standard of excellence.

The following works may with advantage be consulted by intending competitors :

AUSTRALIA—SOUTH.

PORT ADELAIDE.

Leading Lights—Semaphore Anchorage.

IN continuation of Notice to Mariners, No. 63, dated the 31st October 1888, further notice has now been given by the Secretary, Marine Board, Port Adelaide (No. 13 of 1888), that on and after the 1st December 1888 two Red Lights will be exhibited ashore, one from the Time-ball Tower, and the other from the Flagstaff at the shore end of Semaphore Jetty.

These Lights in line, bearing S. E. ¼ S., lead through the deepest water in the Semaphore Anchorage, and up to the Ocean Steamers' Mooring Buoy.

Directions.

By Night.—Vessels approaching the Anchorage should not bring the Port Adelaide Light to the North of N.-E. until the above Lights are in line, then steer in on that line with the lead going until the requisite water is found, or the Mooring Buoy is picked up. When the red light, east of the Light-house, is just closing with the Bright Light on No. 11 Beacon, the vessel will be close to the Mooring Buoy.

The leading Lights will not show South of the Bell Buoy on the Wonga Shoal, so that vessels of suitable draught, which do not intend to use the Mooring Buoy, may steer in for any part of the anchorage as soon as the two Red Lights are visible.

By Day.—Keep the Light-house on the same bearing until the Time-ball Tower and the Water Tower are in line, then proceed as above.

By direction of the Government of Bengal,

EATON W. PETLEY,
Offg. Port Officer of Calcutta.

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday, if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered

DEPOSIT.

When the amount bid is less than Rs. 1,200 per chest, Rs. 900 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazeepore Factory for the year 1887-88, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazeepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

MIDNAPORE COLLECTORATE, the 28th November 1888. E. GEAKE, for Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Dacca, will be put up to sale at the Dacca Collectorate on the 11th January 1889, corresponding with 28th Pous 1295 B.S.

The purchasers will be subject to the following conditions of sale :—

Conditions of sale.

1*st*.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force: and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3*rd*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Collector's Office, district Dacca, the 6th December 1888. T. INGLIS, for Offg. Collector.

NOTICE is hereby given that the right, title, and interest of Government, as specified in the conditions of sale below, in the Nispi land in village Durmoot, pergunnah Majnamoota, which forms the undermentioned estate, situate in the district of Midnapore, will be put up to sale at the Midnapore Collectorate on Saturday, the 12th January 1889, corresponding with 1st Magh 1295 A. S. The purchaser will be subject to the following conditions of sale :—

Conditions of sale.

1. The land comprised in the estate to be sold to the highest bidder above the upset price. The purchaser will be considered as the Nispi holder of the said land, and the entire right, title, and interest of Government in the land will be transferred to him, subject to the annual payment of the undermentioned Nispi rent and peshkush jumma to the proprietors of the temporarily-settled estate Majnamoota, which is now under direct management. The purchaser will have to pay no annual revenue to Government.

2. The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and the purchasers to be bound to respect the rights of the resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3. If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4. If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Furreedpore Collectorate, the 23rd-24th November 1888. T. J. C. GRANT, Collector.

NOTICE is hereby given that the undermentioned plots of Nalhatty Railway land, no longer required by Government, situated in the district of Moorshedabad, will be put up to sale on the 23rd January 1889, at Shagardighi, and on the 24th idem at Bokhra, in Moorshedabad district.

The purchasers of the plots will be subject to the following conditions:—

1*st*.—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough it closer than three feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.

3*rd*.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4*th*.—The plots will be sold revenue-free to the highest bidders.

5*th*.—The purchaser shall be put in possession on receipt of the orders of the Collector approving of the sales. But such possession shall be liable to be disturbed in case the final confirmation of the Board of Revenue should not be accorded to the proceedings.

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1889 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876 :—

No. 2259Mne., dated Calcutta, the 22nd December 1888.

RESOLUTION.

Administration Report of the Hooghly Bridge for the year ending the 31st March 1888.

Read again—

Public Works Proceedings (A)Marine for July 1888, Nos. 1 to 3, being the Administration Report of the Hooghly Bridge for 1886-87, together with the Resolution recorded thereon.

The balance of the original Bridge debt due to Government on the 1st April 1887 was Rs. 5,30,000, and the Commissioners at the same time held a sum of Rs. 9,91,178 invested in Government Securities. Under the orders contained in Government letter No 669, dated the 3rd March 1887, the amount to be held as a reserve fund for the purposes of section 22 of Act IX (B.C.) of 1871 was fixed at Rs. 5,50,000, and the Commissioners, acting upon these orders, retained Government Securities to this amount as a permanent reserve fund, and sold out the remainder; and with the proceeds and the surplus revenue of the months of April and May 1887 they paid off, on the 6th June 1887, all outstanding Bridge debt with the interest due thereon, the whole amounting to Rs. 5,31,782, of which sum Rs. 5,30,000 was the balance of the original debt, and Rs. 1,782 the interest due from April to the 6th June 1887.

2. The Committee appointed by Government in January last to consider and report on the revised scale of fees, tolls, and charges to be levied on the Bridge, had under consideration a proposal to appropriate a portion of the surplus revenue at credit of the Bridge accounts to extinguish the annual charge of Rs. 10,356, which the Revenue Account of the Bridge has still to bear for a sinking fund, and interest in respect of certain Port Trust loans raised for the construction or acquisition of certain works and property designed for the joint use of the Port and Bridge Trusts. The Committee, however, rejected the proposal, on the ground that, so long as the Bridge remains under the supervision and management of the Port Commissioners, the charge is merely one of rent, and can be most suitably met by annual payments; whereas in the event of the Bridge being hereafter placed under other control, redemption of the charge would lead to much inconvenience in the readjustment of the claim. This view was accepted by the Government.

3. The following table shows the actual receipts and expenditure of the Bridge during the year 1887-88, as compared with the estimated amounts, and also the actual income and expenditure of the previous nine years:—

5. The falling off in receipts from railway traffic was due to the action taken by Government in exempting wheat from payment of the te inal charge with effect from the 1st April 1887.

6. The decrease in the amount received as interest on Government Securities was due to the sale of the amount invested in excess of the Rs. 5,50,000, fixed as the reserve fund. But there has been at the same time a saving in the interest charges on debt shown in the expenditure, which were only Rs. 9,486 as compared with Rs 43,959, the amount paid as interest on debt during 1886-87.

7. Owing to the continuation of the terminal charges and tolls at the old rates for ten months after payments on account of interest and sinking fund had ceased, the net revenue of the year amounted to Rs. 3,07,662.

8. The following statement shows how the total net revenue of the Bridge, which had amounted to Rs. 33,40,028 since it was opened for traffic in 1874-75, has been appropriated :—

	To end of 1886-87.	In 1887-88.	Total.

9. The Bridge was kept in thorough working order during the year. In a report recently received from the Commissioners as to the condition of the Bridge, it was stated that at the present time the perishable part of the structure, with the exception of the planking underneath the road surface, is in all respects in as good a condition as it was on the day the Bridge was first opened for traffic. It has also been reported that materials for replacing the planking underneath the road are already in stock, and that the experience of past years has enabled the officers in charge of the Bridge to take special precautions to prevent decay which has been found in certain parts to be due to preventible causes.

10. The Bridge was opened for the passage of vessels on 132 occasions, including 27 special openings, and the following statement gives the number of vessels which passed through the opening. The number of special Sunday openings has increased of late, since such openings have been allowed without charging the vessels fees :—

	1887-88.	1886-87.	1885-86.	1884-85.	1883-84.	1882-83.	1881-82.

11. No sea-going vessels collided with the Bridge in passing through the opening, but there were 63 collisions of other vessels as compared with 105 during the previous year. None of the collisions was of a serious nature.

12. In Government letter No. 1698C., dated the 1st December 1886, the Commissioners were informed that, on the Bridge debt being paid off, the Lieutenant-Governor would take steps to reduce the tolls to such a point as would merely suffice to cover the annual charges for the maintenance of the Bridge. As the opinions of the several bodies interested differed as to the manner in which the reduction should be effected, a Committee, consisting of the representatives of the different bodies interested in the question, was appointed by Government in January last, to consider and report what, in their opinion, the new scale of fees, tolls, and charges should be.

13. The Committee, among other matters, recommended that the future annual expenditure for the up-keep of the Bridge should be estimated from the total expenditure incurred during the past six years, and, on this calculation, should be fixed at Rs. 1,43,000. This proposal has been accepted subject to such modification as may be necessary in order to provide for the renewal of the pontoons.

14. The total amount of the terminal charges levied on goods during the year 1887, excluding wheat, was Rs. 2,76,036-15-3, and the following articles each contributed over Rs. 10,000:—

	Rs.
Cotton	14,440
Rice and grain other than wheat	26,637
Pulses of all kinds	16,066
Seeds of all kinds	79,364
Salt	37,873

The Bengal Chamber of Commerce had contended that the abolition of the terminal charge, which to a large extent falls upon goods which do not actually make use of the Bridge, should precede the removal of the local tolls. The Committee were of opinion that this view, though correct in principle, would, if put into practice, be opposed to the true interests of all concerned, and they came to the conclusion, that provided the greatest amount of relief was given to the goods contributing the bulk of the terminal charges, it would be more desirable, in the interest of all concerned, to abolish the toll bar altogether, and to depend upon such terminal charges as might be levied without causing any inconvenience, for the revenue to meet the cost of maintaining the Bridge. In this view they recommended that, following upon the exemption of wheat from the terminal charge, the following articles should be exempted with effect from the 1st April 1888:—

Rice and grain.
Pulses of all kinds.
Seeds of all kinds.
Salt.

They also recommended that the local tolls might be abolished from the same date, and that the charge (Rs. 19,337-11-6) paid by the East Indian Railway for passengers and parcels to and from stations above Hooghly might be remitted.

15. The Lieutenant-Governor accepted this view, and orders were accordingly issued exempting rice and grain, pulses of all kinds, seeds of all kinds, and salt from payment of the terminal charge, with effect from the 1st of April 1888. Orders were also issued exempting passengers on the railway from payment of terminal fees, and the exemption is about to be extended to parcels.

The Committee's recommendation to abolish the tolls levied on the local traffic was not acted upon at the time, as an amendment of the Howrah Bridge Act was necessary to carry out this object. The Act was amended by Act III of 1888, which received the assent of the Lieutenant-Governor on the 16th May 1888 and that of His Excellency the Viceroy on the 20th September 1888. Under the powers granted by this Act, the Lieutenant-Governor has exempted the local traffic from payment of toll, with effect from the 1st January 1889.

The amount of the terminal charges on goods remitted, as explained above, was as follows :—

	Rs.
Rice and grain	26,637
Pulses of all kinds	16,066
Seeds of all kinds	79,364
Salt	37,873
	1,59,940

The total income left, after the abolition of the above charges, to meet the necessary annual expenditure for the maintenance of the Bridge, was estimated by the Committee as follows :—

	Rs.
Terminal charges on goods	1,16,097
Interest on Reserve fund	22,000
Rent of land and earnings of tug-steamer	19,500
	1,57,597

16. A part of the Committee's scheme was to give out of the balance at credit of the Bridge Account the sum of Rs. 2,00,000 as a contribution towards the construction of a new road from the Bridge to Scaldah. The Government of India found itself unable to sanction legislation for this object, and the recommendation of the Committee was, therefore, not acted upon.

17. The income of the Bridge will thus be increased by the interest on the balance which the Commissioners have been instructed to invest in Government Securities, and there will, it is expected, be a margin for further reduction in the terminals. This question is now under the consideration of the Lieutenant-Governor.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Bridge Commissioners for information.

Ordered also that this Resolution be published in the Supplement to the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

W. B. BESTIC,

Under-Secy. to the Govt. of Bengal.

4. Taking them according to the classification adopted in paragraph 1, the following works are specially noted:—

Public buildings.—Under this head thecontribution of Raja Purna Chandra Sing Bahadoor, of Paikpara, who gave Rs. 19,000 for a charitable hospital at Kandi, is specially noted. Baboo Jadu Rai Moti Ram contributed Rs. 10,000 for an alms-house at Chouk; Baboo Heera Nund contributed Rs. 5,000 for an alms-house at Rajgeer; Kumar Ranjit Sing, of Nashipore, contributed Rs. 3,000 for the Jubilee Hall at Moorshedabad; Baboo Debendra Nath Thakoor and others contributed Rs. 3,000 for a school at Mazoompore; Saroda Soondaree Dasya contributed Rs. 1,051-9-0 for a charitable dispensary, and Rs. 567-15-3 for an alms-house at Nabadwip.

Roads and bridges.—There were no large coutributions for roads and bridges.

Embankments or bunds.—Of the sum of Rs. 6,874 subscribed, Mr. G. L. Solano contributed Rs. 4,800 for the construction of embankments in five villages.

Ghâts.—Rupees 2,953 were contributed under this head. Baboo Prasunno Kumar Roy gave Rs. 1,453 for the construction of two masonry ghâts in the village of Depur. The other contributions were of small amount.

Tanks.—Rupees 1,20,741-10-0 were spent on constructing and re-excavating 179 tanks. Mussamut Dewan Ram Koer gave Rs. 12,000; Megh Narain Datta, Rs. 6,000; the Maharanee of Bettiah, Rs. 6,000; Baboo Jeban Kristo Chatterjee, Rs. 4,000; Baboo Prasunno Kumar Roy, Rs. 3,575-10-0; Baboo Rajkumar Ghose, Rs. 2,000; Baboo Brojo Gopal Sing, Rs. 1,700; and Baboo Koylas Chandra Choudhuri, Rs. 1,500. There were many subscribers of smaller amounts.

Wells.—The sum of Rs. 21,475, contributed under this head, is made up of subscriptions ranging from Rs. 200 to Rs. 700.

RESOLUTION.—The Lieutenant-Governor regrets to find that donations for works of public utility have again diminished in number and amount. His Honour had hoped that the decrease noticed in the past two years would have been only a temporary one, but the reports for the year under review show that there has been a further falling off. To those who have contributed towards such works during 1887, the Lieutenant-Governor tenders his acknowledgments for their public spirit and liberality, and in doing so His Honour desires to express a hope that their good example will bear fruit, and that future years will show an increase in the number and usefulness of the works undertaken by those who can afford to contribute of their means for the benefit of the poorer classes of the community.

Letters of acknowledgment will be forwarded by Government to those who have constructed important works. The contributors of works costing Rs. 500 and under will, as usual, receive an acknowledgment from the Commissioner or the Magistrate of the Division.

ORDER.—Ordered that a copy of this Resolution, and of the statement, be forwarded to the Board of Revenue, Lower Provinces, and to all Commissioners of Divisions; to the Commissioner of Chota Nagpore, and to all Superintending Engineers of Public Works Circles in Bengal, for information.

Ordered also that a copy of this Resolution, and of the statement, be forwarded to the Revenue and Judicial Departments of this Government for information.

Ordered also that this Resolution and the statement be published in the Supplement to the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

	Hill Tipperah „ 19, '88	Nil	Weather—seasonably cold. Chillies and tobacco promising. *Aman* paddy continues to be reaped.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather and state and prospect of the crops.
BEHAR.			
Patna Divn.			
26	Patna Dec. 22, '88	Nil	Weather—cold and cloudy. Prospects of *rabbi* and poppy continue favourable. Prices of food-grains stationary.
27	Gya „ 22, '88	Nil	Weather—seasonable. Paddy is being harvested and threshed. Prospects of *rabbi* promising.
28	Shahabad „ 22, '88	Nil	Weather—fair and cold. Harvesting of paddy nearly completed. *Rabbi* crops reported to be good except in Bhuboosh. Rain wanted. Poppy sowings completed, and the weather has been favourable, and the outturn should be good.
29	Durbhanga „ 22, '88	Nil	Weather—bright and cold. Harvesting of paddy nearly completed. Prospects of *rabbi* fair, but rain is required. Prices rising. Common rice 14 seers, *marua* 16 to 17 seers and *makai* 17 to 18 seers to the rupee.
30	Muzafferpur „ 22, '88	Nil	Weather—cold and bright. *Rabbi* crops in Hajeepore sub-division promising well; prospects in Sudder fair, but unfavourable in Sitamurhi; rain generally wanted for all crops. Poppy doing fairly well. Prices of principal food-grains rising in Sitamurhi.
31	Sarun „ 22, '88	Nil	Weather—seasonable; bright and cold. Poppy sowings completed with success. *Rabbi* prospects excellent. Prices of grains falling.
32	Chumparun „ 22, '88	Nil	Weather—cold and foggy. Paddy harvest approaching completion. Prospects of *rabbi* promising in Bettiah and fair in parts of the Sudder sub-division. *Arhar* is a good crop. Poppy doing well; sowing almost over. The number of persons on the test relief works has increased, but not so rapidly as in last week
Bhagulpore Divn.			
33	Monghyr Dec. 22, '88	Nil	Weather—cool and clear. Harvesting of winter rice nearly finished; outturn about 8 annas. Prospects of *rabbi* continue favourable. Prices easy.
34	Bhagulpur „ 22, '88	Nil	Weather—seasonable. Harvesting of late rice, *katai* and *kurthi* still in progress. The early sowings of the latter crop have yielded better than the late ones. A little barley is still being sown, and the area under this crop is larger than usual. *Rabbi*, except mustard, doing fairly. Prices steady.
35	Purneah „ 22, '88	Nil	Weather—fair and cold. Harvest of *aghani* 8 annas. *Rabbi* crops promising.
36	Maldah „ 22, '88	Nil	Weather—generally fine and cool. Harvest of winter rice continues with 9 annas outturn. Prospects of *kalai* and mustard good. Other *rabbi* crops thriving, but require rain.
37	Sonthal Pergha. „ 22, '88	Nil	Weather—dry; becoming warmer. Paddy crop being reaped. Winter crops doing fairly well.
ORISSA.			
Orissa Divn.			
38	Cuttack Dec. 21, '88	Nil	Weather—seasonable. Late *sarad* (winter rice) ripening. *Laghu sarad* is being harvested. Common rice sells at 21 seers per rupee in town.
39	Pooree „ 20, '88	Nil	Weather—seasonable. Harvesting of winter rice (*sarad*) going on. *Dalua* crop has sprung up. Miscellaneous crops doing well. Common rice 20 seers 9 chittacks per rupee in the Sudder sub-division and 20 seers in the Khoorda sub-division.
40	Balasore „ 21, '88	Nil	Weather—fine and seasonable. Harvesting of winter rice continues. Prospects of *rabbi* crops good.
CHOTA NAGPORE.			
South-West Frontier Agency.			
Chota Nagpore Divn.			
41	Hazaribagh Dec 21, '88	Nil	Weather—seasonable. Harvesting of low land paddy still in progress. *Rabbi* and poppy promising. A shower of rain will do immense good to both crops. *Surguja* being cut; outturn between 10 and 12 annas.
42	Lohardugga „ 22, '88	Nil	Weather—seasonable. Rain badly wanted for *rabbi* crops. Harvesting of paddy is almost finished. Prices steady.
43	Singhbhoom „ 21, '88	Nil	Weather—cold and seasonable. Paddy is still being harvested in some places. Average yield would be about 12 or 13 annas. *Rabbi* crops have suffered much for want of rain. Yield of *rabbi* crops cannot be expected to be more than 4 or 6 annas. Prices same as those of last week.
44	Manbhoom „ 22, '88	Nil	Weather—seasonable. Harvesting of winter rice nearly over; outturn estimated to be 12 annas. *Rabbi* suffering for want of rain. Coarse rice selling from 18 to 24 seers per rupee

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last ten years. The *humidity* of the atmosphere is expressed as percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The *rainfall* are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the last ten years, the decimal reading in returns divided by the number of stations. A rainy day is one on which at least hundredth of an inch fell.

for the week ending Friday, the 21st of December 1888.

CALCUTTA, *the 24th December* 1888.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 21st OF DECEMBER 1888.

CONDITIONS during the previous week over the whole province were those of rather strongly developed north-east monsoon character, and during the present week similar conditions have prevailed with practically no alteration. At the commencement of the week skies had indeed slightly clouded over, perhaps in connection with the cyclonic storm which had crossed the South Madras coast near Negapatam on the 14th, but on the 16th and 17th the westerly winds blowing in the Gangatic valley strengthened and extended partly over Bengal which caused skies to clear rapidly on the 17th, while at the same time temperature fell rapidly and became decidedly low over the greater part of the province, particularly in the western districts. From about the 18th, pressure became remarkably high over Central India and Rajputana, and this high pressure to a certain extent extended to the western stations of the province. This was succeeded on the 19th and 20th by changes which induced slight local low pressure in South-East Bengal, and this was accompanied by a feeble cyclonic circulation of winds in South and East Bengal round a centre near Dacca. The disturbance was still slightly noticeable on the 21st, but it was not of sufficient intensity to in any way affect the weather over the province generally

The meteorological changes in the Bay during the week call for little comment. On the last day of the previous week, a small but fierce cyclonic storm was crossing the South Madras coast close to Negapatam. On the morning of the 15th, the centre of the storm was nearly midway between Madura and Negapatam, and it had filled up very considerably; while on the 16th the storm had completely broken up, leaving only a slight residual barometric depression off the Malabar coast. After the advance of the storm inland the weather rapidly moderated in the Bay and became fine, and it appears probable that this storm will mark the end of the north-east monsoon along the Madras coast.

Pressure.—The variations of pressure during the week have again been small. There was generally a distinct rise of pressure reported on the 15th, but on the following day there was little change. A slight fall took place on the 17th, while on the 18th there was a very distinct rise. For the remainder of the week pressure was falling slowly at many stations. The mean pressure of the week has been in slight excess of the normal at the majority of stations, the excess usually ranging from 0·02 inch to 0 05 inch.

Temperature.—The variations of temperature during the week have been small, but at most stations the temperature in the middle of the week was lower than at the commencement or the end. Temperature has continued below the normal for the period at many stations, but the defects have not been so large as they were in the previous week; in fact at several stations during the present week the mean temperature has been slightly higher than the normal.

The general range of temperature during the week is shown in the table below, where the average maximum, minimum and mean temperatures during the week at nine typical stations in different districts of the province are given compared with the normal values for the same period. It will be seen that the variations from the normal have been comparatively small in all districts, and that the general slight defect has been fairly equally distributed over both the day and night temperatures:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

* A special census of the Europeans in the Darjiling Municipality was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised populations under all heads in the above table, except "*Age*," the returns under which have been omitted, inasmuch as the census of the Europeans cannot be supposed as a basis of calculations owing to the results of the census under this head not having been recorded under the authorised form of age-classification.
